SATELLITE L350

The 17" basic all-rounder

The Toshiba Multimedia Bar gives you the most spontaneous access to all your multimedia needs.

The VGA web camera with Toshiba Face Recognition software makes sure that only authorised users get access to your machine.

Discover easy mobile computing while enjoying an eye-catching laptop design.

A big screen doesn't have to mean a big price. The Satellite L350 is the ideal 17" widescreen laptop for people who want a combination of large impact and affordability. With this basic all-round laptop you get Toshiba's quality, style and full performance so you don't have to compromise on the essentials. Toshiba's latest innovative EasyMedia features are also included in order to make your digital life the way it should be: easy and effortless.

CONNECT WITH EASE

Wireless LAN technology and our easy connectivity features such as Toshiba Config-Free™ software get you online immediately.

BRILLIANT DISPLAY

Bring images and movies to life with Toshiba TruBrite® technology for improved display contrast and clarity.

PRECIOUS MUSIC, FILMS AND PHOTOS

The DVD Super Multi double-layer drive with extra storage space makes editing, sharing and backing-up data easy and painless.

Toshiba recommends Windows Vista® Home Premium

CPU performance may vary from specifications under certain conditions such as the use of battery instead of AC power, certain external peripherals, certain multimedia applications or network connections, complex modeling software and in areas with low air pressure at high altitude (1,000 metres above sea level) and/or certain temperatures. CPU performance may also vary from specifications due to design configuration. Under some conditions, your computer may automatically shut down as a normal protective measure. To avoid risk of lost data, please make periodic back-up copies. For optimum performance, use your computer only under recommended conditions. Please read detailed restrictions in the product resource guide, visit the Toshiba web site: computers.toshiba-europe.com and/or contact Toshiba Technical Support. • Graphics processor unit (GPU) performance may vary depending on product model, design configuration, applications, power management settings and features utilized. • Part of the main system memory may be used by the graphics system and therefore reduce the amount of main system memory available. • For PCs configured with 4 GB of system memory, the full system memory space for computing activities will be considerably less and will vary by model and system configuration. • For information about upgrading your system memory please refer to the user manual or contact your local Toshiba service provider. • One GB means one billion bytes, accessible capacity may be less. • Wired and wireless communication capabilities to be applied in countries where approved. • Battery life may vary depending on applications, power management settings and features utilized. Recharge time varies depending on usage. Battery may not charge while computer is consuming full power. After a period of time, the battery will lose its ability to perform at maximum capacity and will need to be replaced. This is normal for all batteries. To purchase a new battery pack, see your accessories information that shipped with your computer or visit the Toshiba web site at computers.toshiba-europe.com. • Small bright dots may appear on your TFT display when you turn on your PC. Your display contains an extremely large number of thin-film transistors (TFT) and is manufactured using high-precision technology. Any small bright dots that may appear on your display are an intrinsic characteristic of the TFT manufacturing technology. • Weight may vary depending on product configuration, vendor components, manufacturing variability and options selected. • Please check your system specifications to ensure optimal results. • Certain notebook chassis are designed to accommodate all possible configurations for an entire product series. Your selected model may not have all the features and specifications corresponding to all of the icons or switches shown on the notebook chassis.
