# STEP UP TO THE ONE-OF-A KIND RIDER.

When every minute counts and you can't settle for second best, count on the TANK<sup>™</sup> S Series. This family of riders gets the job done faster, easier and better than you ever thought possible. Synchro Steer® technology gives you four-wheel directional steering for unmatched stability on hillsides and easier operation on the toughest terrain. And now you can choose between gas, diesel or liquid propane engines, so you get more of what you really want: control. Take control of one at your Independent Dealer today.

#### INNOVATIVE FEATURES FOR AN INCREDIBLE EXPERIENCE. THAT'S THE CUB CADET ADVANTAGE.

### **EASIER TO OPERATE**

Intuitive, fully adjustable steering wheel with hydraulic power steering and forward and reverse foot pedals means you spend less time learning controls – and more time working in comfort. From the second you sit down, you're in for a better experience than you've ever had from a zero-turn rider. All so you can be more productive all day long.

.....

## **GREATER STABILITY AND MANEUVERABILITY**

Unlike standard zero-turns, Synchro Steer® technology means the TANK<sup>™</sup> S delivers four-wheel directional steering and true zero-turn performance around any obstacle – even on tough terrain and hills. You get full control in any situation without turf damage and without having to switch to a walk-behind. And that makes for productivity you won't find anywhere else.

.....

### SELECT CUT SYSTEM<sup>™</sup> DECK

This innovative deck is equipped with a sloped-nose front skirt. configurable inner baffle, offset and adjustable leading edges, ball wheels and the SmartJet<sup>™</sup> deck washing system. You get better results with cleaner cuts in any grass or terrain - and cleanup is quick and easy.

ABOUT THE MANY BENEFITS OF OWNING A CUB CADET.

# LOOKS LIKE INNOVATION **RUNS IN THE FAMILY.**

THE TANK<sup>™</sup> S, TANK<sup>™</sup> S DIESEL AND TANK<sup>™</sup> S LIQUID PROPANE ZERO-TURN RIDERS.

### GAS – SMOOTH AND DEPENDABLE.

The Kawasaki<sup>®</sup> 31 and 37 HP\* V-Twin gas engines deliver both high performance and smooth operation with the convenience of gasoline power. Its superior cold-starting capabilities make it a dependable machine no matter what season or application you're tackling. Plus, the quieter operation also makes for a more comfortable — and more productive — workday.

### DIESEL - DURABLE AND RELIABLE.

Powered by a 31.2 HP\* Yanmar<sup>®</sup> engine, the TANK<sup>™</sup> S D runs cleanly, quietly and efficiently. The direct-injection engine produces steady and constant horsepower no matter what the job. Plus, it has a higher torque reserve than the competitors' diesel engines, giving the operator more power so that they can get more done. Combine all that with superior reliability, durability and fuel economy and you've got a machine that can handle the rigorous commercial workload - day in and day out.

### LIQUID PROPANE - CLEAN, SMART AND EFFICIENT.

If you are looking for a zero-turn rider that is good for the environment and also for your wallet, look no further than the TANK<sup>™</sup> S LP. Liquid propane, in comparison to gas and diesel fuel, reduces smog-forming emissions by 60% and reduces toxic emissions by 80%. In fact, the TANK<sup>™</sup> S LP meets all current emission requirements set by the EPA and CARB. Plus, liquid propane increases engine life and run times. But the best part - liquid propane is significantly cheaper than gasoline or diesel fuel. So with the TANK<sup>™</sup> S LP, you're not just helping the environment, you're helping yourself.

# ATTACHMEN THAT BOOST PRODUCTIVITY ALL YEAR ROUND

Whether you're working through the heat of summer or the dead of winter, our attachments are made to boost your earning potential the whole year through. So you can maximize your profits while getting the best results possible.
