

**INTRODUCTION:**

Thank you for purchasing the newest addition to the DIGIPOWER line of Universal Power Products. Now, you no longer need to purchase many adapters for your different products. Whether you have Fuji®, Nikon®, Olympus or any other digital cameras, this one simple Universal Adapter is easy to use and specifically designed for use with your camera. Unlike other AC Adapters, the ACD-100 changes voltage and amperage with each voltage setting, making this a truly dedicated adapter. It comes with four pin connectors to fit almost any digital camera.

**Please carefully read the instructions below.**

**PACKAGE INCLUDES:**

- 1 Universal AC Adapter
- 4 Pin connectors, labeled: D, E, F and G.
- 1 compatibility chart for Pin and Voltage settings
- One Year Manufacturer Warranty

If you have any questions regarding this product or any other DIGIPOWER\* product, please email [digipowersolutions@mizco.com](mailto:digipowersolutions@mizco.com), or call toll free: (866) DG-POWER.

**INSTRUCTIONS:**

1. Before you power up your digital camera with the ACD-100, refer to our camera compatibility chart included with this package for the correct Pin connector to use and the correct Voltage setting.
2. Select the appropriate Pin connector (D, E, F or G ) and attach it to the output socket at the end of the output cord.
3. Now, to set the Voltage dial on your ACD-100 to your camera's setting, turn the dial until the arrow is pointed directly at the Voltage listed next to your camera model on the chart. (Figure 1)
4. Once you have attached the correct Pin Connector and set the correct voltage, you may plug in the adaptor to your wall outlet.
5. Now you may plug the Pin connector to your camera's DC in jack and power up your Digital Camera.
