Specification 19	

GGT0312-001A-H

Thank you for buying this JVC LCD panel television.

To make sure you understand how to use your new TV. please read this manual thoroughly before you begin.

Follow this manual regarding setup!

- Connect only to a 110-240 V, 50/60Hz AC outlet
- · Make enough room for inserting and removing the power plug!
- · Place the TV as close to the outlet as possible!
 - The main power supply for this TV is controlled by inserting or removing the power pluq.
- Never cut or damage the power cord!
 - If the AC plug is not the right shape, or the power cord is not long enough, use an appropriate plug adapter or extension cable. (Consult your retailer.)
- · Unplug the power cord when aoina out!
 - The power buttons on the remote control and the TV unit cannot completely turn off the TV. (Make appropriate arrangements for bedridden people.)

Do not allow the TV to fall!

- Do not rest your elbows on, or allow children to hang from the TV.
- There is a risk that the TV will fall and cause injuries.
- Make use of the hole on the back of the stand to prevent the TV from falling easily.

Never place anything on the TV!

- Placing liquid, naked flames, cloths, paper, etc. on the TV may cause a fire.
- Never expose to rain or moisture!
- To prevent fire or electric shock, never allow liquids to enter the unit.

Never insert objects into the cabinet openings!

- It may cause a fatal electric shock.

- Take care when children are near

Hold the TV so as not to scratch the screen!

- Do not touch the screen when carrying the TV.
- · Do not carry the TV on your own!
 - In order to prevent accidents, ensure that the TV is carried by two or more people.
- · When attaching the TV to the wall, use the optional JVC wall mounting unit!
- Consult a qualified technician.
- See the included manual on mounting procedures.
- JVC assumes no responsibility for damage due to improper mounting.
- Never listen to headphones at high volume!
- It may damage your hearing.

If a television is not positioned in a sufficiently stable location, it can be potentially hazardous due to falling. Many injuries, particularly to children, can be avoided by taking simple precautions such as:

- Using cabinets or stands recommended by the manufacturer of the television.
- Only using furniture that can safely support the television.
- Ensuring the television is not overhanging the edge of the supporting furniture.
- Not placing the television on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and the television to a suitable support.
- Not standing the televisions on cloth or other materials placed between the television and supporting furniture.
- Educating children about the dangers of climbing on furniture to reach the television or its controls.

Never dismantle the rear panel!

- It may cause an electric shock.
- Never obstruct the ventilation holes! - It may cause overheating or a fire.
- Handle LCD panel with care!
- Use a soft, dry cloth when cleaning.

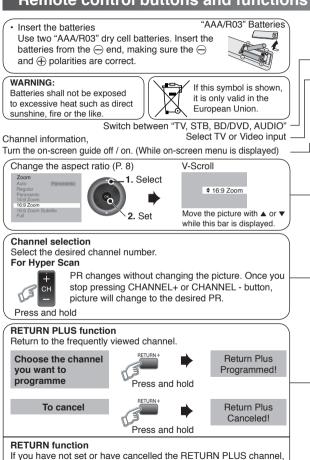

Never try repair the TV yourself!

→ If the problem cannot be solved in "Troubleshooting" (P. 15), unplug the power cord and contact your retailer.

For more details on installation, usage and safety

Configuring your remote control

You can configure your TV's remote control to operate your other devices.

Configure your remote control.

- 1. Turn on the device manually.
- 2. Switch the remote control mode that matches vour device. Refer to the table on the right to select an appropriate mode.

- · The indicator lights for 3 seconds each time the remote control is operated.
- 3. Find the remote control code for your device according to its brand from the "Remote control codes" manual.
- 4. Set the remote control code.

Press and hold

Enter four digit number

Release the button

STB

5. Point the remote control at your device, press and confirm that your device is turned off. If your device does not respond, try entering another available code.

Note

- · If your device does not respond, try all the available codes for the device's brand
- If none of the code works, or the brand is not listed, refer to "Using the search code function" (P. 14).

MODE	Applicable devices
TV	This TV only
STB	Cable Set Top Box, Cable/PVR Combination, Satellite Set Top Box, SAT/PVR Combination
BD/DVD	DVD, Blu-Ray DVD, HD DVD, DVD-R, Home Theater in Box, TV/DVD Combination
AUDIO	Amplifier, Receiver, Home Theater in Box

Using the search code function

This function searches through the codes one by one, beginning from the first code in the list.

- 1. Turn on the device manually.
- 2. Switch the remote control mode that matches your device.

 Press MODE to select the mode.
- 3. Activate the search code function.

 Hold down until the mode indicator blinks.
- 4. Point the remote control at your device and press lift there is no response, try the next code by pressing ▶ and press again. Repeat the process until your device turns off
- 5. Press to register the code.

 The code is now set. Confirm that the mode indicator goes out.
- If your TV's remote control still does not work even after using the search code function, use your device's own remote control. The TV's remote control is not guaranteed to work with all models, brands or operations.

Button functions

■ Change the remote control mode

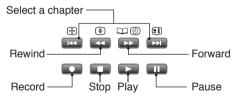

■ Turn on/off the device

■ Navigate the menus

■ Playback / Record, etc.

- Volume ⇒ Press " vol.
- Select a surround mode ⇒ Press "===
- Depending on your device, some functions may not be operable with this remote control.

Troubleshooting

If a problem occurs when you are using the TV, check the below troubleshooting guide before calling for repair.

Severe noise or snow	Page
Check the aerial cable and TV connections.	P. 4
Check the direction of the aerial.	P. 4
Check the aerial or its cable damaged or not.	
Patterns, stripes or noise	
Interference caused by devices such as an amplifier, personal computer, or a hair drier, Move it away from TV.	
Ghosting (Doubling of images)	
Interference occurs caused by signal reflection from mountains or building. Try to adjust the aerial's direction or use another antenna.	
Cannot turn it on	
Ensure the power cord is connected to the AC outlet correctly.	
Cannot operate the remote control.	
The batteries may be exhausted. Replace with new batteries. Ensure that you are operation the remote control at less than 7 meters from the front of your TV.	
Remote control stops working	
Unplug TV, several minutes later plug it in again.	
Side control buttons do not work	
Switch "Child Lock" to "Off".	P. 11
Aspect ratio changed unintentionally	
Press " wutton to return to your settings.	P. 8
PC screen alignment is off	
Adjust the "PC Position" in "PC Setting" of Set Up menu.	P. 12
Blue screen appears on the screen	
Switch "Blue Back" to "Off".	P. 11
Strange picture when using an external device	
If the top of the image is distorted, check the video signal quality itself. If movement appears unnatural when receiving a signal from a DVD player, etc. with 625p (progressive-scanning), change the output setting of the external device to 625i (interlace-scanning)	

u	ng guide before calling for repair.		
	Poor picture quality	Page	
	Unnatural colour >> Adjust "Colour" and "Backlight"	P. 7	
	Check "Colour System". If "Auto" is selected	P. 8	
	select the specific colour system manually.		
	Noise >> Set to the following functions.		
	Picture Mode: Standard	P. 7	
	DigiPure : On	P. 8

PC Signals that can be displayed

 If the signal doesn't appear, check that the vertical frequency on the PC is set to "60Hz".

Resolution	640 x 480(VGA) / 1024 x 768(XGA)	
Vertical frequency (Hz)	60.0	

What is "Clear SD"

LCD picture is unstable due to a large number of signal noise. Such noise appears extensively especially when an LCD displays SD signals. Clear SD mode resolves disadvantage for better picture quality.

No use "Clear SD"

Use "Clear SD'

Connect "DVI" devices

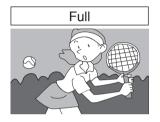

Connect a "DVI" device to "HDMI" using "DVI-HDMI" conversion cable. Connect analogue sound output of the DVI device to L and R terminals in HDMI-1.

- Set "Audio" in "HDMI Setting" to "Analogue" or "Auto" (P. 12)
- · HDMI-2 and HDMI-3 input does not support analogue sound (IN HDMI-1).

Technical information (continued)

What is "Full Native"?

 With the full HD LCD display and "Full Native", you can enjoy full native HD resolution of 1920 x 1080. It exposes flaws in the video that were hidden when viewing on "Full".

- * The illustrations are emphasised to make clear differences between "Full" and "Full Native".
- Dark bar or noise may appear at the edges of the screen when viewing in "Full native" for some videos. This is resulted from the signal itself, not due to TV malfunction.

What is "Eco Sensor"?

You can adjust this TV so that the screen automatically adjusts to the optimum contrast of light and dark according to the brightness of your room.

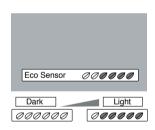

This function reduces eyestrain and the power consumption of this TV.

- · Set "Eco Sensor" (P. 11)
- Make sure not to block the Eco Sensor on front of the TV (P. 4)
- To fully reduce eyestrain and the power consumption of this TV. Set to the following functions.

Eco Sensor : On or Demo (P. 11)

Smart Picture : On (P. 8)

■ Using "Demo" in "Eco Sensor", you can display the effect of the "Eco Sensor" on the screen.

CH / CC List

To use the Insert function (P. 6), find the "CH/CC" number corresponding to the TV's channel number from this table.

US: The US channel numbers are the channel numbers used in the United States, Philippines, etc.

CCIR: The CCIR channel numbers are the channel numbers used in the Middle East, Southeast Asia, etc.
OIRT: The OIRT channel numbers are the channel numbers used in Eastern Europe, Russia, Vietnam, etc.

AUSTRALIA: The AUSTRALIA channel numbers are the channel numbers used in Australia, etc.

Teletext systems	FLOF (Fastext), WST (World System Teletext)		
Power requirements	AC 110 V - 240 V, 50/60Hz		
Audio output (Rated power output)	10 W + 10 W		
Speakers	(4 cm x 16 cm) x 2		
Power consumption [standby]	160 W [1.3 W]		
Screen size (visible area size measured diagonally	106.7 cm		
Dimensions (W x H x D: mm [without stand]	1014 x 695 x 279 1014 x 646 x 109		
Weights [without stand]	20 kg [19 kg]		
Accessories	Remote control unit : RW-C2510 x 1 AAA/R03 dry cell battery x 2 Screw x 4 Safety band (belt) and Screw x 1		

Terminals / Connectors

Term	inal name	Terminal type	Signal type (IN)	Signal type (OUT)
	VIDEO-1	RCA connectors x 6	Composite video, Analogue component 576i (625i) / 480i (525i), Progressive : 576p (625p) / 480p (525p), HD : 1080i (1125i), 720p (750p) / 1080p (1125p) Audio L / R	
Input	VIDEO-2	RCA connectors x 3	Composite video, Audio L / R	
terminals	HDMI-1		HDMI 576i (625i) / 480i (525i)	
	HDMI-2	HDMI connector x 1	or x 1 / 576p (625p) / 480p (525p),	
	HDMI-3		720p (750p) / 1080p (1125p) / 1080i (1125i)	
	IN HDMI -1	RCA connectors x 2	Audio L/R	
	PC INPUT	D-SUB (15 pins) x 1	Analogue PC signal	
	PC AUDIO	PC-IN (3.5 pinjack) x 1	Audio	
Output terminals	MONITOR OUT	RCA connectors x 3		Composite video, Audio L / R
	Headphone	Stereo mini-jack x 1 (3.5 mm in diameter)		Headphone output
