

TOSHIBA

Advantage Toshiba

- 36" FST PURE® flat tube eliminates unwanted reflections from room light compared to conventional tubes designs and increases viewing angle
- Invar Shadow Mask enhances color reproduction thanks to its nickel-alloy construction which is more heat resistant than conventional iron masks
- 3-Line Digital Comb Filter with Vertical Contour Correction provides more accurate processing of RF and composite video signals for a sharper, cleaner picture
- Advanced Velocity Scan Modulation improves contrast and overall picture sharpness
- Dynamic Quadruple Focus produces clear legible text and graphics around the outside of the screen thanks to improved edge and corner focus
- Colorstream® Component Video Input provides the ultimate picture quality from interlaced component video signals
- Front Panel A/V Input for easy connection of video games or a camcorder
- Glow Universal Remote also controls most manufacturers' VCRs

Technology and Benefits

VIDEO

FST PURE® Fine Pitch Flat Picture Tube

This "purely flat" picture tube delivers increased viewing angle along with the enhanced picture linearity necessary to produce accurate life-like images.

Black Level Expander

Improves contrast which results in a sharper more 3-dimensional picture.

Color Temperature Control (Warm, Medium, Cool)

The viewer can easily adjust white balance to achieve the best picture possible regardless of room lighting.

AUDIO

Double Baffle Speaker System

Provides improved stereo sound reproduction without connecting additional speakers.

Surround Sound

Allows the viewer to enjoy an enhanced home theater experience without the connection of additional speakers.

Sub Bass System

Creates richer, deeper home theater sound.

CONVENIENCE

Direct Video Input Selection

Inputs can now be directly selected from the remote's numbered keypad without scrolling through all the inputs.

Movie and Sports Modes

Allows for instant video adjustments for optimum viewing of popular types of programming.

Video Lock

Selected inputs can be locked out to prevent viewing.

Closed Captioning on Mute

This feature automatically displays captioned information (if available) when the mute button is pressed.
