## Product highlights

### DivX playback

With DivX support, you are able to enjoy DivX encoded videos in the comfort of your living room. The DivX media format is an MPEG4-based video compression technology that enables you to save large files like movies, trailers and music videos on media like CD-R/RW, memory cards and DVD-video. DivX CDs can be played back on selected DVD players, DVD Recorders and Home Theatre Systems.

### MPEG4 playback

MPEG4 is a compression standard allows you to record movies at up to seven to 10 times smaller than the MPEG2 standard without compromising on the picture and sound quality. MPEG4 media can be saved on a CD-Rom, memory card or DVD disc and can be played back in selective DVD players, DVD recorder and Home Theatre Systems.
