Power Supply
Plug one end of the AC adaptor into the DC input jack, then plug the other end into an AC wall outlet.

Phone Jack
For private listening, insert headphones into the headphone jack.
CAUTION: Listening to high volume levels for and extended period of time may cause damage or loss of hearing.

USB Slot
To enjoy music or pictures from your USB Travel Drive, simply insert it into the USB port on the side of the Picture Frame. When unplugging in the USB Travel Drive, ensure that the Picture Frame is set back to the main menu; then unplug the USB Travel Drive from the side of the Picture Frame.

SD/MMC/XD/MS
Insert an SD/MMC/XD/MS card into the card slot to enjoy the audio files or pictures.

Snooze/ Alarm Off Button
(The following instructions work only when the ALARM option is enabled).
To snooze the alarm when it sounds, simply press the SNOOZE/ALARM OFF button. This will momentarily mute the alarm sound from buzzing, but will sound the buzzer again after a few minutes.
To turn off the alarm, press and hold the SNOOZE/ALARM OFF button for 3 seconds.
NOTE: After the alarm buzzes and is turned off, it is required to turn the alarm back on again. Otherwise, the alarm will not sound again once it reaches the pre-set time.

Play/ Pause Button
Press the PLAY/PAUSE button to pause during playback. Pressing this button again will resume playback.

Basic Play
Power on the unit then enter the main menu. The screen shows eight functions: photo, movie, setup, calendar, clock, alarm, copy/delete, and favorite.
First, insert a USB Travel Drive or SD/MMC/XD/MS card, then use the NAVIGATION buttons to select one of the following function. Press ENTER to confirm the selection.

Photo
Press the NAVIGATION buttons to select the photo option. Then press ENTER to confirm the selection. After the Picture Frame reads the data for several seconds, it begins to browse the pictures automatically one by one. When the Picture Frame is in auto playback mode, it enters Thumbnail Mode directly.
Pressing the STOP button while the pictures are playing will stop the pictures from playing.
The Thumbnail Mode menu appears on the screen as follows:
Thumbnail of each title: select the thumbnail by using the NAVIGATION buttons and pressing ENTER to play.
Information: Resolution, created date, rotate, and slide show.
Rotate: Highlight the rotate option and press ENTER to confirm. Then enter the rotate mode, there are three options at the bottom of the screen: Rotate it, Reset, and Return. Use the NAVIGATION buttons to select the desired picture to rotate. Now press ENTER to rotate it. Select reset to restore the picture back to its original setting. Select RETURN to return to the Thumbnails Mode menu.
Slide show: Select slide show option to slide the pictures one by one.
Press the NAVIGATION LEFT and the NAVIGATION RIGHT buttons to rotate the picture Clockwise and Counter-Clockwise respectively.
Press STOP button twice to return the file manager.
Press NAVIGATION DOWN button to flip the picture vertically.
Press NAVIGATION UP button to flip the picture horizontally.

Movie

Press the NAVIGATION buttons to select movie, then press ENTER To confirm the selection. After the Picture Frame reads the files for several seconds, it begins to play the movie automatically. Press the STOP button to return to the main menu during movie playback. Press PLAY/ PAUSE to pause and resume playback. *NOTE: This unit supports MPEG4 format.*

Calendar

Use the NAVIGATION buttons to select the CALENDAR function. Press ENTER to confirm the selection. The calendar will be shown on the display. You can adjust the calendar by pressing the NAVIGATION BUTTONS. Use the NAVIGATION LEFT/RIGHT buttons to adjust the year. Then use the NAVIGATION UP/ DOWN buttons to adjust the month. Use the STOP button to confirm your selection. Use the NAVIGATION buttons to select the date, then press ENTER to confirm. To exit this function, press the MENU button.

Clock

Use the NAVIGATION buttons to select the CLOCK Function. Then press ENTER to confirm the selection. The current time will be shown on the screen in big characters; and the current date, month, year and week will be shown under the time in small characters.

Alarm

Use the NAVIGATION buttons to select the ALARM function. Press ENTER to confirm the selection.
The options for the ALARM are as follows:
Enable: Press the NAVIGATION UP/DOWN button to make a selection between the two options (on/off).
Set time: select this option to set the alarm time after the alarm is enabled. Use the NAVIGATION UP/ DOWN button to select the SET TIME option. Press ENTER to confirm the selection. Use the NAVIGATION LEFT/RIGHT buttons to highlight the desired time to set. Then use NAVIGATION UP/ DOWN buttons to make the adjustments. Press the NAVIGATION RIGHT button to confirm and press ENTER to exit the alarm time set mode. The Buzzer will sound at the pre-set alarm time (only if alarm is enabled). *NOTE: After the alarm buzzes and is turned off, it is required to turn the alarm back on again. Otherwise, the alarm will not sound again once it reaches the pre-set time.*

Copy/ Delete - Used to copy photos only onto the internal memory (approx.15 photos max)

Use the NAVIGATION buttons to select the Copy/Delete function. Press ENTER to confirm the selection. Select COPY or DELETE to enter the corresponding window where the file to be copied or deleted are.

Copy Function: when copy function is selected, all JPEG files in the USB Travel Drive or memory card will be displayed in the file manager. use the NAVIGATION UP/DOWN buttons to select the files and press ENTER to confirm the selection. The selected file will be highlight in a rectangle frame. When the selection is finished, use the NAVIGATION buttons to select SAVE to save the selected files onto the internal memory of the unit.

Delete Function: When DELETE is selected, all JPEG files saved will be displayed. Use NAVIGATION buttons to select the files that you want to delete from the internal memory and press ENTER to confirm the selection. The file you selected will be deleted.
Delete All: Press the NAVIGATION buttons to select delete all in the bottom menu. All the files in the internal memory will be deleted.
Sort Mode: When Sort Mode is selected, use the NAVIGATION buttons to select the file that you want to move and press ENTER to confirm. Then press the LEFT NAVIGATION button to move the picture up in the sequence. (For example, move its sequence from 3rd position to 2nd position). Press the RIGHT NAVIGATION button to move the picture down in the sequence. (For example, move its sequence from 3rd position to 4th position).
Press the NAVIGATION buttons to select RETURN to return to the edit mode. Select SLIDE SHOW to browse the pictures one by one.
NOTE: The saving process may take some time to finish. Larger file sizes will take more time. Please don't remove the USB Travel Drive or memory card, or turn off the power while saving. Doing so may case loss or damage in the data on the USB Travel Drive, memory card, or internal memory.

Favorite - Used to view photos stored on the internal memory

Use the NAVIGATION buttons to select the favorites option. Press ENTER to confirm the selection. This begins to browse the files saved in the internal memory one by one. During playback press PLAY/PAUSE to pause or resume playback. Press the NAVIGATION buttons to rotate the picture. During a slide show, press the STOP button, this enters Thumbnail Mode. To exit this option, press the MENU button.

Setup

Select the setup option to display the setup menu. Use the NAVIGATION UP/DOWN keys to select the desired item. Then press the NAVIGATION RIGHT button, the sub-options for each item will appear on the right side of the screen.

Interchangeable faceplate

Picture (1)

Picture (2)

Picture (3)
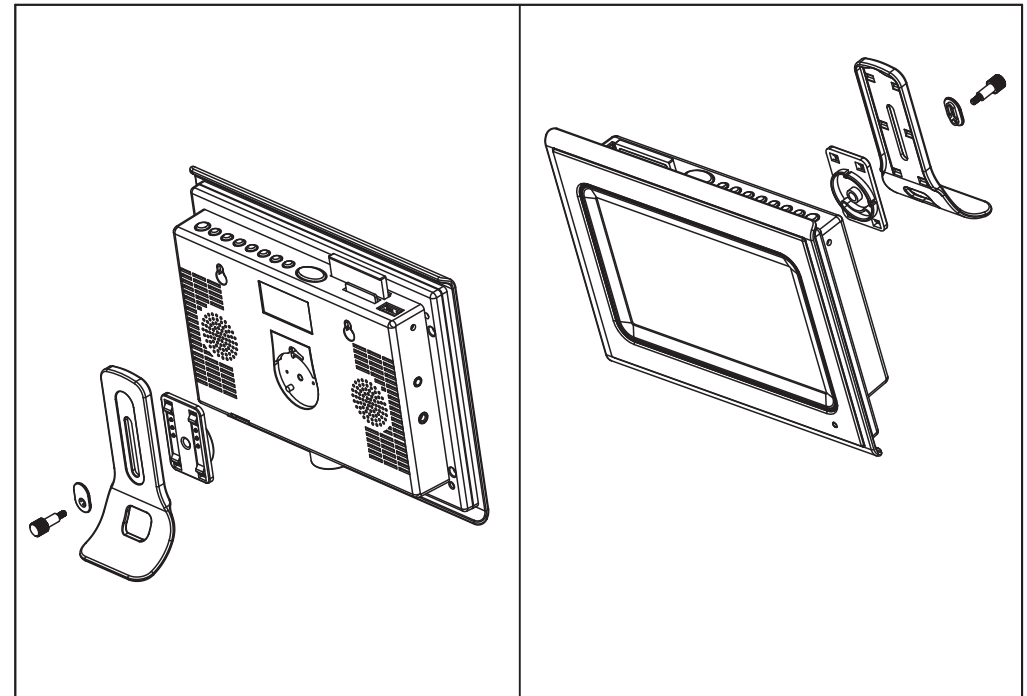

Picture (4)

Picture (5)

Please follow the above illustrations for proper assembly and disassembly of the face plates.

Assembly panel: To install the faceplate, locate the faceplate as shown in Picture (1), and match it to the photo frame as shown in Picture (2). After all points have been matched, clasp the panel slightly to assemble it.
Disassembly: To remove the faceplate, insert the Pin (or other pointed metal object) into each of the holes (1, 2, 3, 4). Then lift the faceplate from the screen.

Bracket assembly installation

Cleaning the Digital Photo Frame
1. Please make sure that you have turned off and unplugged the digital photo frame from the AC outlet before cleaning it.
2. Don't put any liquid on the screen or the cabinet directly.

Cleaning the screen
1. Gently wipe the screen with a soft, lint-free cloth to remove dust and other particles that can scratch the screen.
2. To clean the tough areas, use a soft, lint-free cloth with a few drops of water to remove stubborn dirt.
3. Never apply any pressure to the surface of the screen.

Cleaning the cabinet
1. Use a soft, dry cloth to clean the cabinet.
2. To clean the tough areas, use a soft, lint-free cloth with a few drops of water to remove stubborn dirt.
