

PHASER 750

COLOR LASER PRINTER

Introducing the Phaser 750 color laser printer. Superior laser print quality, value-packed network performance, and a fully-loaded feature set (available right in the base model).

The Phaser 750 color laser printer — it's the printer that meets all the demands of your business, every day of the week. In color.

features that fit

More innovation, less intervention. The 750 is built for business, where ease of use and reliability are key productivity concerns. The printer boasts easy-to-install consumables. While consumables usage information, available through the front panel and via the browser, lets you anticipate when the printer might need attention.

exceptional print quality

Professional color. High-caliber 1200 dpi images and text speak volumes about your standards. From the photo-quality color of your newsletter to the sharp text on your presentation, the 750 communicates quality.

The color standard. Automatically, the 750 optimizes the color of each element on your page. When you want complete color control, select from built-in commercial print profiles or choose to match the colors on your monitor. Next-generation print drivers give you even more options, and the ability to preview effects of changes onscreen. You always get the advantage of the industry's leading color technologies TekColor Dynamic Correction, ColorSync, and true Adobe® PostScript® 3.

Flexible color. The 750 can accommodate a full range of office papers and operating conditions. Expect the same sharp color whether you are printing on premium paper stock or on every-day copier paper. To really make a positive impression, select from the Tektronix line of papers and printing media, which are formulated for optimum image quality and reliable printing.

maximum value

Robust productivity. Fast print speeds of 5 ppm for color and 16 ppm for black meet your toughest deadlines. And powerful 200-MHz image processing rips through even the most complex files.

Network-ready performance. Printer installation has never been easier. Right-out-of-the-box design means you are up and running immediately. With built-in high-speed connectivity of 10/100BaseT

Ethernet, quick USB, and bi-directional parallel, and serial interfaces, a single printer can support your entire workgroup.

Time-saving options. Automatic two-sided printing saves time and paper. Additional high-volume paper trays expand printing capacities up to 850 pages, while high-capacity toner cartridges provide twice the toner capacity of standard laser printers. All this translates into fewer stops at the printer.

PhaserLink remote control. Our advanced PhaserLink™ printer-management software lets you check printer activity, type of media loaded, and toner levels; access detailed usage reports and job accounting reports — or cancel the current print job — all without ever leaving your desk. The 750 can even send you an email *before* it runs out of supplies! PhaserLink even recognizes non-Tektronix printers.

Workgroup smart. An optional internal hard disk includes a built-in support web site, giving instant access to software, manuals, and videos to everyone on the network.

Reliable technology. Since the 750 is the fifth generation in a line of laser success stories, you can be sure it's backed by technology that's been tested and proven. The 750 comes with a 1-year on-site warranty and is covered by the Xerox Total Satisfaction Guarantee. And should the printer ever need support or service, our award-winning team of color professionals is standing by ready to help, via online support, toll-free telephone support, and on-site service when needed.

PRINTER/JOB MANAGEMENT

PhaserLink™ Software provides printer status, configuration, email notification of printer errors, Intranet support, and Tektronix support via standard web browsers.

Printing Scout monitors the printer and displays pop-up Help if attention is needed.

Usage Profile monitors the printer on a network, providing usage statistics, page counts, intervention histories, and more.

Job Accounting provides job information, including job duration, media type, page count, and amount of consumables used.

Remote Printing allows users to print directly to any Phaser printer on a TCP/IP network.

First Page Preview provides a single print preview of multiple-print projects.

Collation Printing provides collated copies of multiple-page documents.

Pipeline Printing overlaps print processing several pages ahead of printing for optimum throughput.

Intelligent Ready software tracks when and how the printer is used. The printer automatically assumes a standby power-saving mode during periods of non-use and returns to Ready mode prior to a use period.

Built-in Hard Disk is standard on 750DX (optional on 750N, 750P and 750DP). The 6-GB internal hard disk includes a built-in Support web site. Includes browser-based documentation, driver installation, troubleshooting and productivity enhancements.

Add an Avision Scanner and turn your Phaser 750 printer into a scan/print station

All Phaser 750 models also include:

- **Image Processing** 200-MHz PowerPC Processor
- **Maximum Print Speeds** *Color:* 5 ppm (Fast Color mode); 4 ppm (Standard mode)
Black and white: 16 ppm
Transparency Film: 2 ppm
- **Monthly Volume** 50,000 pages/month
- **Language** Genuine Adobe® PostScript® 3™, Color PCL 5C emulation with automatic sensing and switching
- **Network Interfaces** *Standard:* 10/100BaseT Ethernet port, USB port, and bi-directional parallel interface
Optional PhaserShare® Network Cards: Token Ring (NetWare, TokenTalk, FTP, & TCP/IP)
- **Ready for the Network** Automatic network installation, drivers distributed over the network, Printing Scout, simple drivers with animated graphics, and PhaserLink all make installation and support a snap.
- **Printer Drivers** PC drivers for Windows 3.1, Windows 95, Windows 98, Windows 2000, Windows NT, OS/2; PhaserPort peer-to-peer Windows driver; Macintosh; PhaserPrint plug-in³ for direct download of Photoshop files; Model files for SUN SGI, HP, IBM, DEC workstations
- **Printer/Job Management** PhaserLink web-based printer management, includes open-standards remote printing, usage profile, job accounting, multiple printer status including Tektronix and non-Tektronix printers, and email notification
- **Fonts** 136 Resident fonts
- **Front Panel** two-line LCD with interactive menu
- **Color Standards** PANTONE®-approved solid-color simulations, Adobe PostScript device-independent color, CIE international color standards, and support for ICC and Apple ColorSync color management systems
- **Color Control** TekColor™ Dynamic Correction Color Profiles: *Automatic:* Adjusts colors of photos, graphics, and text automatically for the best color reproduction
sRGB Display: Matches your computer monitor
Vivid Color: Business presentations, charts, and graphs
SWOP, Commercial, SNAP, Toyo, DIC, FujiiProof, or Euroscale: Press simulations
Black and White: grayscale printing
- **Media Input Trays** *Standard:* 250-sheet Paper tray and 100-sheet Multi-purpose tray
Optional on 750N and 750P, Standard on 750DP and 750DX: Automatic Duplex/Lower Tray Assembly holds 2 trays (250-sheet paper, 100-sheet transparencies)
- **User-selectable Print Quality Modes**
Fast Color: Speeds printing and saves ink, suitable for previewing and peer-level documents
Standard: General-purpose full-color printing
Enhanced: Professional color print quality, superior text resolution, and smooth colors
Premium: Stunning photo-image printing
Fast monochrome
Premium monochrome
- **Conservation** EPA Energy Star standby mode
- **Warranty/Support** 1-year On-site Warranty, online web technical support, toll-free telephone support, and color printing newsletter included. Innovative service offerings include optional extended service contracts and custom training for your internal Help Desk. The Phaser 750 printer is covered by the Xerox Total Satisfaction Guarantee.

Paper handling

- Automatic Duplex/Lower Tray Assembly, standard on 750DP and 750DX, automatically prints on both sides of a page, provides two additional media input trays for high-volume jobs, and allows quick switching between different types of media.
- Prints on 16-40 lb. bond (60-150 g/m²) and heavy papers up to 60-lb. cover stock (up to 163 g/m²), or 90-lb. index stock (up to 163 g/m²); coated or glossy papers; transparencies; labels; envelopes
- Prints on Letter, A4, Executive, Legal, #10 Envelopes
- Printing margins: *Letter-size and Legal-size:* Prints within .2 in. (5 mm) of top and bottom, .15 in. (4 mm) of left and right edges. *A4-size:* Prints within .2 in. (5 mm) of all edges.
