VR525-CS

"Best Component Speaker"
Max Power (UK)

"Built with the same dedication as their subs, JL have come up with a brilliant, winning component set. You cant argue with their lovingly warm performance. Transients were reproduced with precision and vocals sounded alive and had great clarity."

"You could pay more, but why bother?
Winners indeed."

Product Review
— Car Stereo Review (USA)

"...natural spectral balance and breathtakingly realistic sound quality.."

"it sounds better than my favorite coaxial... and (better than) the \$2000... separates (tested in January 1998)."

"The Evolution VR525-CS from JL Audio is a true high-fidelity product."
