

MULTICLIP

MULTICLIP PRO 51 S

## Multiclip PRO 51 S

A professional self-propelled lawnmower with the effective Multiclip system.

The Multiclip system cuts and fertilises the lawn. It also makes the lawnmower quieter. You don't need to rake or empty a collector. You cut the grass about 30 % faster compared to collecting.

The lawnmower is designed for professionals and others who want the best. Professional features are for example, low vibrations which means that you can work a full day without white fingers, a very sturdy design with deck and wheels in aluminium (20 years warranty)\*, adjustable handle for cutting close to walls, central height adjustment and friction blade holder that protects the engine if you hit solid objects.

The noise effect is very low, < 92 dB(A). A reduction of 3 dB(A) reduces the noise by half.

Equipped with an environment friendly 6,0 hp motor. Cutting width is 51 cm.

Certified with the SVAN label as an environment friendly option.

340 005
