PARK POWER

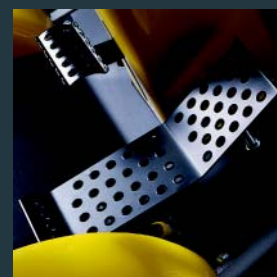

Park Power

A ride-on lawnmower with front-mounted deck and genuine articulated steering. The all-round machine is an outstanding implement-carrier.

The front mounted deck lets you see what you are cutting and the genuine articulated steering offers unsurpassed manoeuvrability. The cutting decks with the Multiclip system cuts and fertilises at the same time and also makes the machine quieter. You don't need to rake or empty a collector.

The ride-on lawnmower is well equipped. Features are for example; variable speed (hydrostatic) regulated with a foot pedal, foot-controlled attachment lift, adjustable comfort-seat and steering wheel, hour meter for simplified maintenance, headlight. The cutting decks have a unique system for easy cleaning. The decks have different cutting widths (92 or 107 cm).

The machine is an outstanding implement-carrier. You can for example easily change from a cutting deck, sweeper or edge-trimmer to a snowplough or snow thrower. The list of implements is a long one. No implements are included as standard.
