

Ready Stiga

A ride-on lawnmower with front-mounted deck with rear wheel steering. A shorter and lower mower that is easy to turn in narrow places.

The front mounted deck lets you see what you are cutting and lets you get under bushes, around trees, into corners and across edges. The Multiclip system cuts and fertilises at the same time and also makes the machine quieter. You don't need to rake or empty a collector.

The comfortable seat is sprung and adjustable to different leg lengths. The seat can also be folded into a rain proof position. In addition the seat has draining.

The ride-on lawnmower is easy to operate with limited steering power. The cutting deck is comfortably raised and lowered by using a foot pedal. The deck has a unique system for easy cleaning.

Equipped with an environment friendly 12,5 hp engine and a gear-box with five gears. Deck is available with 85-92 cm cutting width.
