## Sun Visor Mounting

**⚠ Note:** Arkon **strongly recommends** using the visor mount on the passenger side sun visor. Using this mount on the driver's side visor will reduce the driver's view of the road.

Do not place device car charger cords in or near an air bag deployment zone.

- Step 1. Lower the vehicle sun visor and place the clip mount over the top of the visor. Slide the mount left or right to adjust the location on the visor.

## Connecting the Swivel Ball Adapter to the Dual T-Tab Mount

- Step 1. Connect the dual T-slots (A) on swivel ball adapter to the dual T-tabs (B) on the sun visor mount.

## Install the Support Legs to the Holder

- Step 1. Insert the holder support legs (C) by sliding them into the support leg grooves (D) on the top and bottom of the holder.

## Connecting the Slim-Grip™ Holder to the Swivel Head Adapter

- Step 1. Connect the dual T-slots (E) on holder to the dual T-tabs (F) on the pedestal head.

## SM511 | Slim-Grip™ Universal Holder with Auto Sun Visor Mount

### Insert Phone into Holder

- Step 1. Secure holder with your hand for support, as spring-loaded mechanism requires significant force to operate. Hold your phone and insert into universal holder by pushing down on the bottom spring-loaded support legs with moderate amount of pressure (G). Slide the top of the device under the top support legs (H) until it fits snugly in the holder.

### Adjusting Holder to Fit Phone

- Step 1. If necessary, adjust the support legs (I) on top and bottom by sliding them laterally to avoid any buttons or ports that may be on your phone.
