

Park Prestige 4WD

Articulated steering is the secret. You sit above the pivot point and watch over the cutting deck ahead. It is easy to turn and easy to navigate around bushes, trees and fences. The back wheels follow the track of those up front. Test drive and experience the incredible feeling of freedom! Combined with 4WD you can stop and go without slipping even on slippery slopes and snowcovered driveways.

The front mounted deck is easy to use, clean and maintain. There is a full range of Combi decks with Multiclip and rear discharge between 95 cm to 110 cm to choose from. The Multiclip system cuts and fertilises the lawn at the same time. No need for raking or emptying a collector.

This front mower comes with a lot of features. Hydrostatic speed control, high comfort seat adjustable with one hand grip, adjustable steering wheel, hour meter, headlight, electric cutting height adjustment and mechanical servo steering. The cutting deck can be angled into cleaning position without removing the V-belt.

Choose from a long list of implements. You can easily change from a cutting deck, sweeper or edge cutter to a snow blade or snow thrower. Equipped with the patented quick connection for accessories.
