

TURBO/COMBI

TURBO PRO 45 S COMBI

Stiga Turbo Pro 45 S Combi

Our top-of-the-range selection, designed for maximum efficiency and comfortable working under professional conditions.

Adjust the handle to your body in height, Ergonomic OPC lever. Place your hands on the handle to experience the unique and patented vibration damping. Feel how smoothly it moves over the lawn thanks to wheels fitted with professional double ball bearings.

All Turbo models feature Multiclip mulching technology, optionally combined with collection and rear discharge. An environmentally friendly engine is available as an option.
