VOICE RECORDER

# ICD-BM1VTP

## Memory Stick® Digital Voice Recorder

### features

- ▲ **Includes Dragon NaturallySpeaking™ Preferred Voice to Print Software** to easily convert your recorded files into text
- ▲ **Slide Switch Control Operation** allows for one-button operation of all major functions of the recording device
- **High Value Design with Seamless Aluminum Body** increased body size provides a more comfortable fit in the hand and lightweight to hold
- ▲ **Uses Removable Memory Stick® Media-Includes One 16MB Memory Stick** records all dictation on small, compact, high capacity Memory Stick®, and allows recorded cards to be readily distributed for processing; Memory Stick® media cards 8MB to 128MB can be inserted into the unit for different applications
- ▲ **Up to 347 Minutes Recording Time with Supplied 16MB Memory Stick® Media** offers the option of up to 5 hours 47 minutes recording time on the supplied 16MB Memory Stick which may be recorded over and used again
- **USB Connectivity for High Speed Copying of Files to the PC** via USB port on a PC
- **Selective Automatic Folder Copy Function to the PC** Specific folders automatically send its contents to a desired location on your PC
- **High Quality Sound-"New LPEC™ CODEC"-16KHZ Sampling Rate** with improved frequency response ensures excellent recorded sound clarity
- ▲ **Multiple Recording Modes: Stereo-41 Minutes, SP-130 Minutes, LP-347 Minutes** allows different levels of recording for different situations
- ▲ **Overwrite (Correction) Function** allows the user to rewind to a location and re-dictate from the last correct word
- ▲ **Digital Pitch Control** allows recordings to be heard at slower than normal speeds without distortion to facilitate transcribing or editing, or faster than normal to move quickly to a desired portion
- **Voice E-Mail Function** using the supplied digital voice editor software lets you easily send audible e-mail with an attached file
- **Up to 340 Message Folders for Dictation** provide separate message areas for different applications such as business memos or personal reminders, for better organization and faster access
- **Full Function LCD Display** shows number of messages recorded, recording length, date, time, and battery power remaining
- **Incremental Rewind (Easy Search)** is the equivalent of tape Fast Rewind but without returning all the way to the beginning of each recording, to help locate specific passages
- **Advanced Digital VOR (Voice Operated Recording)** stops the recording during silent pauses, saving valuable recording time, then begins recording again without missing a single syllable thanks to the digital buffer
- **Built-In Microphone** for extra convenience, eliminates the need for an external microphone
- **Built-In Playback Speaker** for monitoring playback of recordings
- **Battery Strength LCD** provides a visible signal when battery strength is low
- **On/Off Switch** allows you to control the power by switching on or off
- **Hi/Lo Mic Sensitivity** enables the unit to record different situations, from group meeting to individuals, more effectively
- **Stereo Earphone and Microphone Jacks** allows listening through earphones for privacy or transcription and the stereo mic jack allows connection of an external microphone
- **LED Operation Indicators (Record/Play)** indicates Red when unit is recording, Green when in playback mode
- **Includes Carrying Case** to protect the device and make it more portable
- **Microsoft® Windows® 98/2000/Me/XP Compatible**
