Software bugs fixes and/or enhancements:

Software Module	OS	Change	Description
Both	All	Bug	In the DSS Player Pro, if the MAPI email profile is used with Microsoft Exchange Server, the DSS Player Pro process does not terminate after the program is closed. This result in an OdiOIDVR error message when shutting down the PC.
Both	All	Bug	In the DSS Player Pro, If the MAPI email profile is used with Microsoft Exchange Server and the option "Support for using email dictations with MS Outlook XP/2003" is checked, Microsoft Outlook "Outlook Send/Receive Progress" dialog display the progress but the process will not complete.
Dictation Module	All	Bug	If a user edits a DSS file and record close to the EOF using the Remote Edit window, The Dictation Module crash.
Both	All	Bug	Device Detector 3 couldn't display all devices as "Supported devices" in the Setting dialog, when the Dictation Module was selected in the dialog.

Both	All	Bug	If the "Documents" folder in enabled in the Options -> General tab ->Transcription Tree View, 'drag and drop' files between the Download Tray folders and other folders become disabled.
Both	All	Bug	The DSS Player Pro installer fails to register DMIService.exe in some rare cases.
Both	All	Bug	When a folder was mapped to the root of a network drive and a user downloaded a large DSS file to that folder, the DSS Player crash.
Both	All	Bug	When a folder was mapped to the root of a network drive and a user change the status of a large DSS file in that folder, DSS Player crash.
Dictation	All	Bug	In the Remote Edit window, the saving location reset to its previous setting on next startup.
Transcription	All	Bug	If none Olympus DSS file status changed to "Unfinished", the actual status in the file header is changed to "Finished" and therefore the file couldn't be transcribe afterward.
Dictation	All	Bug	If a download folder name is different from the physical folder name, the auto-send function will not process the downloaded files to be sent automatically. No messages found in the Outbox.
Both	All	Bug	After the DSS Player Pro has been opened once after installation and later on the "My Documents" folder on the PC is redirected to another location, user might experience a problem with downloading files and error message "An error occurred while downloading" pop up.
Both	All	Change	If a DSS Player Pro MAPI profile selected is different from the default profile used in MS Outlook, The DSS Player Pro will display a warning message "Profiles in DSS Player and Outlook are different. Select the same profile.". The warning message has a checkbox to disable such warning in the future.
Dictation	98/Me/2K	Bug	When the "Remote Edit" window is open, the DSS Player Pro couldn't recognize the connected recorder/directrec.
Both	All	Change	DSS Player Pro couldn't recognize Dragon NaturallySpeaking 9.
