Quick Start Guide

Thank you for purchasing the RCA Digital Voice Recorder (VR5320R/VR5330R). In this Quick Start Guide, you will learn how to perform software installation and to set up the date and time for your player.

Software installation

1. Extend the USB connector of the player and connect it to your computer.

2. Open My Computer and double-click the player's drive icon. Double-click rcaDVM_setup.exe to start the Digital Voice Manager installation.

- The RCA Detective application is installed with the Digital Voice Manager application and will open the Digital Voice Manager application automatically when you connect the player to your computer.

3. After installation is completed, you can go to **Start** > **All Programs** > **RCA Digital Voice Recorder** > **RCA Digital Voice Manager** to start the program.

You can remove the rcaDVM_setup.exe file after installation to free up the space on your player. To download the program, go to *www.rcaaudiovideo.com.*

Date and time setup

1. Insert 2 AAA batteries in the player.

2. When **YY** shows, press ⏮/⏭ or **VOL +/–** to adjust the value (default year: 2009) and then press **info/menu** to confirm.

3. Repeat step 2 to set the "Month", "Date", "12/24 hour time", "Hour" and "Minute"

4. After the date and time are set, press ▶II to turn on the player and start using the player.

For details on operating the player, please refer to the user manual.
