Sunbeam's Safety Precautions

SAFETY PRECAUTIONS FOR YOUR PEDICURE FOOT SPA.

Please read this booklet carefully before you start to use your Pedicure Foot Spa. It will enable you to get the most out of your new product and to safely enjoy its many benefits. Please retain this booklet for future reference

1. Diabetics and people with heart conditions or circulation problems must consult their health care practitioner before use.
2. If you are pregnant please consult your health care practitioner before use.
3. If you suffer from any problems with your legs or feet such as varicose veins, please consult your health care practitioner before use.
4. Do not use if your feet are swollen or inflamed or if you have any skin irritations.
5. Discontinue use immediately if you feel any discomfort or if pain or irritation occurs.
6. Do not connect or disconnect the plug from the power outlet while your feet are in the water.
7. Dry your hands thoroughly before connecting or disconnecting the plug from the power outlet or switching any switch.
8. Do not stand up while using the product.
9. Do not place any objects inside the appliance.
10. Do not use the appliance while sleeping or if you are feeling drowsy.
11. The infra-red panel will get hot. Persons insensitive to heat must be careful when using this setting.
12. Do not use the appliance for more than 20 minutes. Switch off and allow to cool down before using again or storing.

If you have any concerns regarding the performance and use of your appliance, please ring our Customer Service Line on 1800 025 059. In New Zealand - contact Sunbeam on 09 912 0747.

Ensure the above safety precautions are understood.

تأكد من تفهم احتياطات السلامة المذكورة اعلاه

請務必理解上述的安全預防措施。

Assurez-vous que les précautions ci-dessus relatives à la sécurité sont bien comprises

Versichern Sie sich daß die obenstehenden Sicherheitsmaßnahmen Verstanden werden

Βεβαιώστε πως οι παραπάνω προφυλάξεις ασφαλείας γίνονται κατανοητές

Pastikan bahwa tindakan-tindakan keselamatan seperti di atas dimengerti anda

Accertatevi che le suddette norme di sicurezza siano comprese a dovere

上記の注意事項をよくお読みになり、安全を御確認ください

Уверете се дека погоре споменатите мерки на претпазливост се добро разбрани

Asegúrese de que las precauciones de seguridad precedentes sean bien comprendidas

کاری بکنید کہ احتیاطهای بالا حتماً درک بشوند

ต้องแน่ใจว่า ข้อควรระวังเรื่องความปลอดภัยข้างต้น เป็นที่เข้าใจกันดี

Yukarda belirtilen güvenlik önlemlerinin anlaşıldığından emin olunuz

Xin kiểm chắc rằng những biện pháp làm an toàn kể trên được hiểu rõ

Sunbeam's Safety Precautions

SAFETY PRECAUTIONS FOR ALL ELECTRICAL APPLIANCES

Sunbeam are very safety conscious when designing and manufacturing consumer products, but it is essential that the product user also exercises care when using an electrical appliance. Listed below are precautions which are essential for the safe use of an electrical appliance:

1. Read carefully and save all the instructions provided with an appliance.
2. Always turn the power off at the power outlet before you insert or remove a plug. Remove by grasping the plug - do not pull on the cord.
3. Turn the power off and remove the plug when the appliance is not in use and before cleaning.
4. Do not use your appliance with an extension cord unless this cord has been checked and tested by a qualified technician or service person.
5. Always use your appliance from a power outlet of the voltage (A.C. only) marked on the appliance.
6. Close supervision is necessary when your appliance is being used near children or infirm persons.
7. Young children should be supervised to ensure that they do not play with the appliance.
8. Do not use an appliance for any purpose other than its intended use.
9. Do not place an appliance on or near a hot gas flame, electric element or on a heated oven. Do not place on top of any other appliance.
10. Do not let the power cord of an appliance hang over the edge of a table or bench top or touch any hot surface.
11. For safety reasons and to avoid maintenance by unskilled persons, some appliances are 'sealed' using tamperproof screws. Such appliances should always be returned to the nearest Sunbeam Appointed Service Centre for adjustment or repair if required.
12. Do not operate any electrical appliance with a damaged cord or after the appliance has been dropped or damaged in any manner. If damage is suspected, return the appliance to the nearest Sunbeam Appointed Service Centre for examination, repair or adjustment.
13. For additional protection, Sunbeam recommend the use of a residual current device (RCD) with a tripping current not exceeding 30mA in the electrical circuit supplying power to your appliances.
14. Do not immerse the appliance in water or any other liquid unless recommended.

Features of your Pedicure Foot Spa

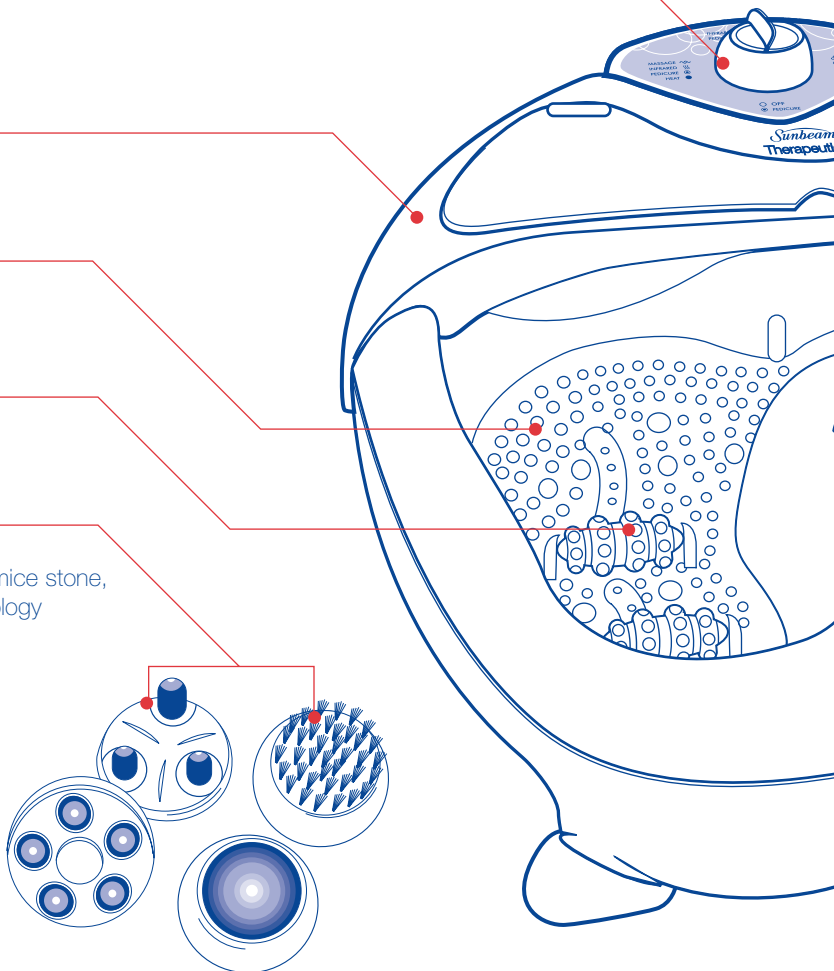

Control Dial

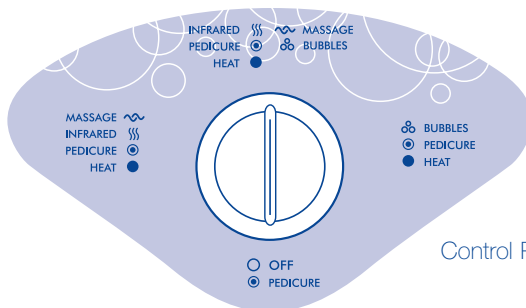

Anti Splash Cover

Massage Nodes

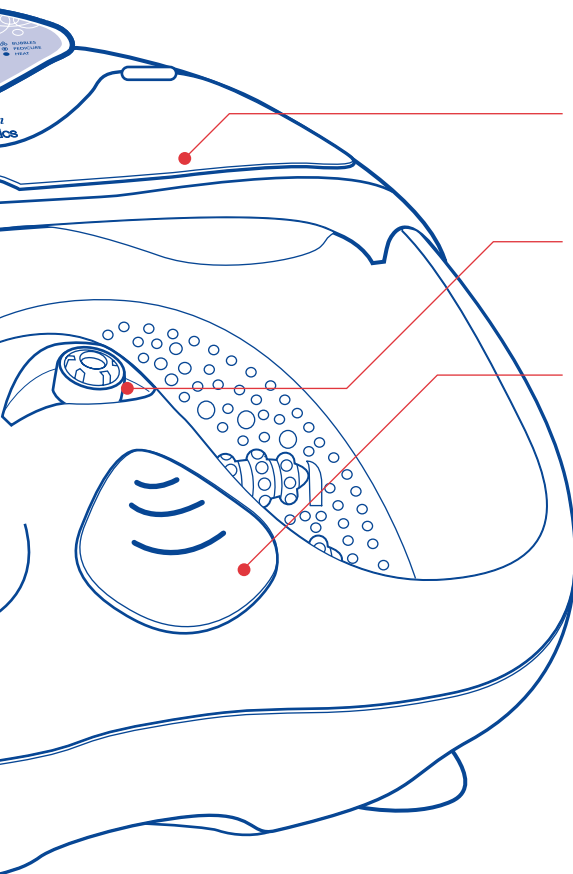

Rollers

4 attachments –
cleansing brush, pumice stone,
massage and reflexology

Control Panel

Storage compartment

Pedicure centre

Infra-red panel

Using Your Pedicure Foot Spa

1. Ensure that the control dial is in the 'O' off position.
2. Place the product on a firm, level floor
3. Place a chair behind the unit and adjust its position until you can sit comfortably with your feet inside the appliance (without water).
4. Place a towel within easy reach to dry your feet afterwards.
5. Using a large jug, fill the foot spa with water. Do not fill above the maximum level indicated.
6. Do not use hot water as this will make your feet sweat.
7. Insert the plug into a 230-240 volt power outlet and turn on.
8. Sit in the chair and place your feet in the appliance.
9. Turn the switch to the setting you wish to use –

Setting 1 – Massage, Heat & Infra-red heat

When using this setting, the appliance will maintain the temperature of the water which you have added. It will not heat cold water. To increase the intensity of the massage, move your feet backwards and forwards over the rollers in the base of the appliance. If the rollers are not required simply remove and replace with the plain insets. Place the sole of your foot on the infra-red panel to soothe and ease aches and pains. This also helps with the absorption of any treatment creams.

Setting 2 –Massage, Heat, Infra-red heat & Bubbles

This setting will also make the water bubble for an invigorating treatment. Use all these features when feet are tired and sore.

Setting 3 – Bubbles & Heat

Using the Pedicure Centre

Push one of the attachments onto the fitting on the pedicure centre. Press lightly with your foot to activate. Maintain pressure whilst moving the attachment over the sole of the foot. Use the Cleansing Brush attachment to gently cleanse the foot. Use the Pumice Stone attachment to rub away hard skin which will have been softened by the water. Use the Massage attachment to massage all over your foot. Use the Reflexology Attachment to massage a particular part of the foot. Lift your foot from the unit to stop it rotating. Lift the attachment straight up to remove it.

10. Do not use the product for more than 20 minutes.
11. When you have finished using the appliance, return the switch to the 'O' off position and remove your feet from the unit and dry thoroughly.
12. Turn off power outlet and remove plug.
13. Discard the water.

Care and Cleaning

1. Turn the control dial to the 'O' off position
2. Turn the power off and remove the plug from the power outlet.
3. Rinse the inside of the appliance with warm water.
4. Do not immerse the appliance in water or any other liquid
5. The inside of the appliance, the attachments and the exterior walls can be wiped over with a cloth dampened in water and a mild detergent. Then rinse and dry
6. The attachments can be washed in a mild detergent. Dry thoroughly before using again. Store in the storage compartment

Help Line

If you have any additional questions about using the Pedicure Foot Spa please call the Sunbeam help line in Australia on 1 800 025 059. In New Zealand please call 09 912 0747.
