

## User Manual Supplement

### FlashMic DRM85-C Features

P4

Your FlashMic combines a professional-quality, uni-directional condenser microphone with an internal digital audio recorder in a single self-contained, self-powered unit. An extremely simple set of controls makes it suitable for completely non-technical users; alternatively, more experienced recordists can access a wide range of additional functionality through menu-based pages on the FlashMic's LCD display.

### Specifications

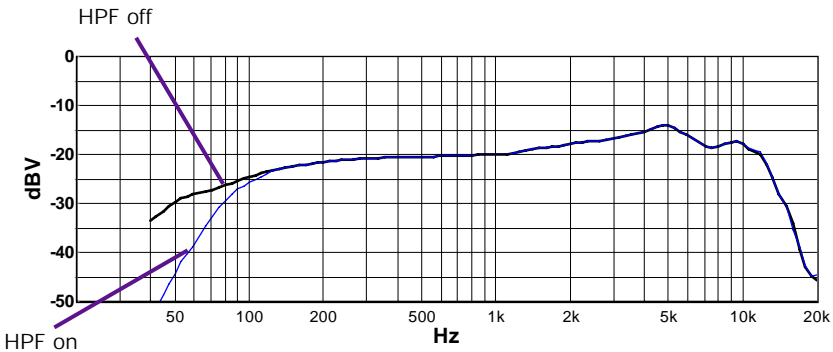

P38

All specifications are as the omni-directional DRM85, with the exception of:

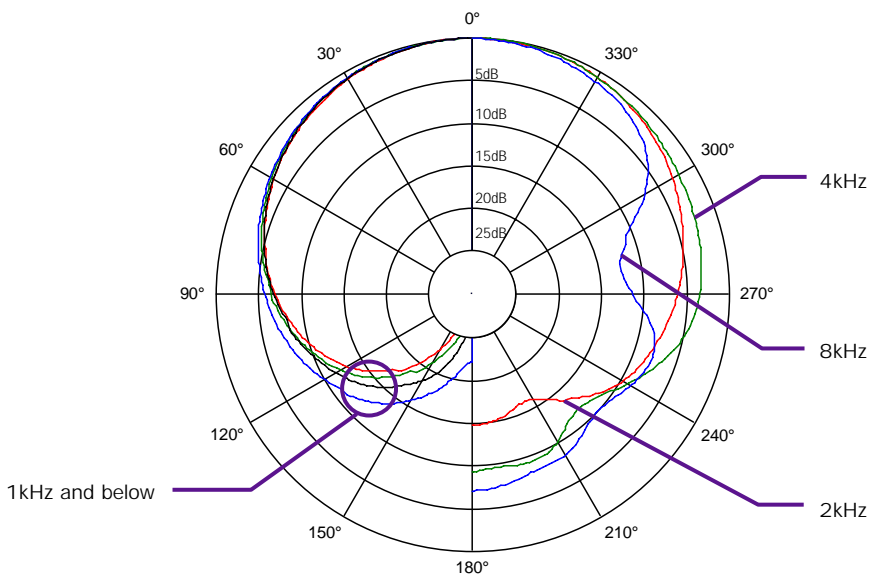

**Microphone capsule** Uni-directional (cardioid)

### Polar Diagram and Frequency Response Curve of DRM85-C Cardioid Microphone Head
