### Design

This is Vixen's brand new design which incorporates only the highest quality optics, coatings and waterproofing techniques. Complete with professional case, caps and straps. They all feature:

- Waterproof (Nitrogen Filled)
- Multi-coated Optics
- BaK4 Prisms
- Twist-up Rubber Eyecups
- Long Eye-Relief
- Photo tripod ready and balance adjustment rail

### Giant 12X80 Waterproof

This model offers an awesome 80mm light-gathering power with a great 4.1° field-of-view for this binocular series. Great for picking out those faint-fuzzies in the sky and sweeping the Milky Way.

**Model # BG-GW-1455**

**Weight: 2.39 kg / 5.3 lbs**

### Giant 16X80 Waterproof

This model is an excellent compromise between magnification power and field-of-view. At 16x magnification, it can still garner an amazing 4.3° field-of-view.

**Model # BG-GW-1456**

**Weight: 2.39 kg / 5.3 lbs**

### Giant 20X80 Waterproof

For observers that desire higher power and great light-gathering ability, these 20x magnification models will do the trick through a 3.5° field-of-view.

**Model # BG-GW-1457**

**Weight: 2.39 kg / 5.3 lbs**

### Giant 30X80 Waterproof

Our highest power model is for those who need to get closer to the Moon, planets and things of nature. At a whopping 30x magnification, this giant offers a surprisingly wide 2.3° field-of-view.

**Model # BG-GW-1458**

**Weight: 2.39 kg / 5.3 lbs**
