Getting to know your device

The following figure shows the appearance of the MF636. It is only for your reference. The actual product may be different.

① Indicator
It indicates your modem status.
② Memory card slot (MicroSDHC card)
It is where you insert memory card (MicroSDHC card).
③ Modem cap
It protects your modem USB port when it is not used.
④ SIM/USIM card slot
It is where you insert the subscriber identity module/UMTS subscriber identity module (SIM/USIM) card.
⑤ USB connector
Connect your modem to the laptop or desktop computer.
Set up your modem

1) Insert the SIM/USIM card into the USB modem
To install SIM/USIM card
- First take down the modem cap, then the USB connector is visible.
- Pull the plastic socket above the USB connector out.
Note: Do not pull the socket rudely for the socket is fixed with the modem. Otherwise the socket will get damaged.
- Insert the SIM/USIM card with the metal contact area facing downwards into the socket.

- Insert the plastic socket into the modem. You can hear a click when the SIM/USIM card locks in place.
To Remove the SIM/USIM card from the USB modem
- First take down the modem cap.
- Pull the plastic socket gently, and you can hear a click when the SIM/USIM card gets unlocked.
- Take out the SIM/USIM card.
2) Install the MicroSDHC card into the USB modem:
Insert the MicroSDHC into the MicroSDHC slot from the side of the modem. The following picture indicates the correct inserting direction.

3) Connect the USB modem to your PC:
- Plug the USB modem into your computer's USB port and make sure that it is tightly inserted.
- The OS automatically detects and recognizes new hardware and starts the installation wizard.
Note: If the system does not launch installation automatically, you can run the installation program in path of My Computer > ZTEMODEM > AutoRun.exe.

Safe Removal from your System

Please close the application software, and then you can pull out the USB Modem safely.

❓	Help	Show the help information.

Safety Warning

To the owner
- Using electronic transmitting devices in aircraft, at petrol stations, and in hospitals is prohibited. Please observe and obey all warning signs and switch off your modem in these conditions.
- Operating USB modem may interfere with medical devices like hearing aides and pacemakers.
- Be aware of warning signs in places such as oil refineries or chemical factories where there are explosive gases or explosive products being processed.
- Store the USB modem out of the reach of children. The USB modem may cause injury if used as a toy or may be damaged by rough play or moisture.

Using your USB Modem
- Only use original accessories supplied by the manufacturer. Using unapproved accessories may invalidate your warranty.
- Avoid using the USB modem near or inside metallic structures or establishments that can emit electromagnetic waves.
- The USB Modem is not waterproof. Please keep it dry and store it in a cool place out of direct sunlight.
- Handle the USB modem with care. Don not drop, bend, knock or treat it harshly to avoid damage to the unit.
- There are no user serviceable parts. Dismantling the unit will invalidate the warranty.
- Operating temperature range of 0°C ~ +55°C and humidity 5%~95% are recommended.
