

Accuratus Mini Keyboard 3000

Part Code: KYB803-00H-BLKHY

With In-Built 2 Port Hub

About

Specification

A mini keyboard with scissor technology keys and 2 Port Hub....

The new 3000 offers professional performance in a slim line chassis.

Finished in solid black with black keys, the 3000 looks extremely sleek.

Not only does it use high performance scissor key caps and advanced membrane technology, it also includes a **2 port hub** allowing you to connect other low voltage USB products directly into the keyboard.

This is a well designed, good looking product. The feel from the scissor key caps is rewarding and the versatility of the 2 port hub sets it apart from the rest.
