

Accuratus Numeric 17 Key Keypad

Part Code: KYBAC100-00BEIHY (BEIGE)

About

The Accuratus numeric keypad is the ideal companion for real number crunchers.

Utilising a sensitive scissor key action, it keeps a low profile while delivering excellent feedback.

Being so slim the Accuratus keypad could easily get lost within the average Notebook computer bag making it ideal for those who need to travel.

Laser etched keys ensure that however hard you work the pad, the legends will remain clear and easy to read.

Specification

Specification
