Tools for the Professional **New!**

“White Talon” Jab Saw

Ridge Tool is pleased to offer the new “White Talon” Jab Saw which is one of the most versatile hand saws you can own. The large contoured handle provides a solid grip and allows you to maximize your torque and sawing motion while cutting everything from plastic and steel pipe, to drywall and lumber.

The handle is specifically designed to readily accept either standard recip saw blades, or hack saw blades. The blades can be quickly interchanged allowing you to move from one job to the next in record time.
