

Mercury Mice

Go Trendy! Consumers can make a fashion statement with this stylish and convenient Nano Wireless Laser Mouse from Verbatim. The unique design features a glossy Mercury finish and a see-through side that gives a view of the scroll wheel—this mouse is a conversation piece! The small nano receiver plugs into the USB port on a laptop and can stay—no need to plug and unplug a bulky receiver! Besides a great look and nano convenience, this mouse features a 1600 DPI Sensor that offers quick and precise movement on almost any surface as well as 3 sleep modes for improved battery life.
