CERATECH

Accuratus 5100 Slim Keyboard

Part Code: KYBAC5100-USBHY

| About | Specification |

A slim line keyboard with scissor technology keys…..

The new 5100 offers professional performance in a slim line chassis.

Finished in silver with black keys, the 5100 has the appeal and durability for those 'top end' applications.

The 5100 uses high performance scissor key caps and advanced membrane technology which provides it with great comfort, feedback and durability. Another benefit of this design is that the key tops are extremely shallow giving the 5100 its ultra thin profile.

As with other Accuratus products, the key tops are laser etched to ensure that the characters remain fresh throughout the product's life.

Finally, the 5100 has a metal base which offers strength and weight for the perfect feel.

Features:
Scissor type key architecture
Slim and elegant design.
Multi-lingual available.

Mechanical Specifications
Key: 105/107 keys.
Key pitch: 19.05mm
Peak force: 55 +/-15 g
Switch travel: 2.4 +/-0.5mm
Switch reliability: 5 million cycles
Keyboard dimension: 400x149.5x20mm
Switch mechanism: Membrane

Electrical Specifications
5100U: USB interface
Power consumption:
+5VDC +/- 5% @ 100mA (max)

Environmental Operation Condition
Operating temperature: 0 degree C ~+50degree C
Storage temperature: -20 degree C ~+65 degree C
Operating humidity: 10% to 85% RH

5100 - No ordinary keyboard, no ordinary construction
