# Connecting Mini Player

Connecting to a Computer Connect the small endto player, largeend to PC.

### 1. During Power Off

Connect it to the computer using the USB cable supplied in the package during the player powered off. It will be charged using the power supply from the PC.

Connecting to a computerduring it power off, it will charge itsbuilt-in battery and appears as the left figure.  $(\mathbf{N})$ 

This page was intentionally left blank

# Connecting MiniPlayer

# Connecting MiniPlayer

### 2. During Power On

Connect it to the computer using the USB cable supplied in the package during the player powered on. It will charge its built-in battery and appears as the figure.

In the normal Windowsenvironment, as soon as the cable or simple USB jack is connected, the message "Searching for new device" appears and USB driver is installed automatically. For Windows 98SE, put the included CD-ROM in your disk drive, then follow the instructions on your PC screen to install the USB drive.

Note: While connecting to PC, tracks and operations cannot be applied. Pullingout the PC connection cable from the player before yourlistening to music /viewing a picture and so on.

## Charging the Battery

- \* Charging the Batterybefore using your player.
- \* While the player is connected to the computer via USB cable, it will charge its built-in battery. The battery is fully charged in about 3 hours.
- \* Check if the player is connected to a high-power USB2.0 port. Some low-power USB ports available in keyboards and other USB hubsmay not provide enough power to charge or sync the player.
- \* If the computeris in sleep mode, the player may notbe charged.

The Remaining Battery Chargeicon indicates the remaining time the battery canbe used. The more the battery is used, the fewer the number of segments in theicon.

# To Charge the Player with AC Adapter

USB port on theplayer

- 1. Connect the AC adapter (not provided) and the player. To charge the player with AC adapter, USB-DC adapter is required. Connect the USB end to the player and another end to the power supply jack. The AC adapter for the player uses input voltage of 100~240V and 50/60 Hz.
- 2. While connecting the player and power supply, it will power on automatically. The battery is fully charged in about 2.5 hours.

# Using for the First Time

# ■ Using for the First Time

### Handling

If you grab the player as picture, it is easier to handle them.

### The procedures ofusing for the first time

- 1. Insert the installation CD in your computer and install the manager software.
- 2. Install USB driver program (Only for Windows98 system or lower).
- 3. Connect the player to the computer using the USB cable supplied in the package. It will charges its built-in battery in the meantime.
- 4. Operate and manage [Removable Disk] on My Computer.
- 5. Disconnect the USB cable to the player.
  - (All keys of the player can not be operated during connecting to PC.)
- ${\small 6. \ Connect \ the \ earphone \ to \ the \ player.}$
- 7. Long press the power ON key and to start the player.
- 8. You can use the player to play music, video, view your favorite photographs, and a lot of other features.

# System Requirement

Pentium 133MHz or Higher 32MB Main Memory or Higher 40MB Hard Disk Space or More CD-ROM Drive USB Port (2.0) Windows 98SE/ ME/ 2000 / XP

### Install Software

Insert the installation CD into the CD-ROM drive. The following screen appears after inserting the CD.

When installation is automatically not started, execute the setup.exe in the installation CD, and then the Manager program is automatically setup.

The installation CD contains the following contents:

- Device Driver for Windows98
- VirtualDub for MEIZU Mini Player

Video Converting Tools

# Downloading from the PC

# Format

You should take special care whenyou format it since all the data in the memory will be deleted. The folders named Movie, Picture, Record, Music in the playerare system directories, they will be deleted after format. Reboot and operate the player, then the directories will be recreated automatically.

- Do not subject the player to severe impact or jarring. Vibration experienced during walking or exercising will not affect the player. However, dropping a heavy object on the player may result in damage or sound distortion.
- Be careful when storing the set and do not use or place it at the following places:
  - Places with high humidity;
  - Places with strong magnetic fields;
  - Places with extreme temperatures;
  - Directly under the sunshine or near the equipment that generates heat;
  - Inside a car with closed windows especially in summer.
- It is necessary to prevent strong shock when reading files or operating, otherwise files may be damaged or deleted.
- Please do not repair or disassemble this product by yourself.
- Please do not use this product in the place where forbid to use for electronics products.
- Please do not operate this product while driving.
- Please backup the important information on your note book, any repair result from electricity shock, static electricity, change of battery or incorrect using may cause change, damage or delete the files stored in the product.

# Precautions for Using the Product

Make sure that the player does not get in contact with chemicals such as benzene or thinner.

Keep away from impact, do not contact with the static objects.

Do not drop player or apply impact. Shock is the major cause of breakdown.

Frequently back up important files. All the data stored in the product may be deleted during AS.

Please keep the SN of your player to register on Meizu's website or for your future's reference.

Keep away from places of dust and cigarette ash.

If you disassemble or modify the product arbitrarily, you cannot receive free services, and may be excluded from the scope of service.

Please keep the highperformance transparent protection film on the player and do not remove it.

### Trouble Shooting

The player does not power on.	<ul> <li>Check that the battery's polarity is correct.</li> <li>Check the voltage ofbattery. Replace it with a newone. Remove the battery and insert it again.</li> <li>Check whether the HOLDswitch on the player of N (Switch to OFF position)</li> </ul>
There is no sound.	<ul> <li>Check that there are mp3 files in the memory.</li> <li>Check whether VOLUME is set to "0".</li> <li>Connect the earphones/remote plug firmly.</li> <li>Corrupted MP3 or WMA files may make a static noise &amp; the sound may cut off.</li> <li>Check your files on the PC to see if they are corrupted.</li> </ul>
Characters in LCD are broken.	<ul> <li>Check out Menu - Display - Language and confirm whether the right language has been selected. If the problem continues, contact our AS Center.</li> </ul>
Failed download of MP3 file	<ul> <li>Check the connection betweenyour computer and theplayer to ensure that the cable is secure.</li> <li>Check the Manager program to make sure it is operating.</li> <li>Check whether the player's Memory is full.</li> </ul>

Note: Should any problempersist after you havechecked these symptoms, consult the distributors.
