AMERICAN OWNED AND OPERATED

Model A1000

USER'S MANUAL

Congratulations on purchasing your Trio Personal Media Player! To get the most out of your purchase, please take the time to carefully read through this manual.

Due to Firmware changes, some of the pictures and functions described in this manual may not be the same as are included with your player.

Note:
●This player does NOT support DRM encrypted or copy protected WMA audio files, such as those provided by many subscription sites. Please

verify that your download service allows you to download files in MP3 format, or a non encrypted WMA format before loading files to the player.

● The playback times listed refer to the maximum playback times possible, using the best power savings. The actual playback time may differ as adjustments to screen brightness, power savings modes, volume, etc are made.

● As parameters such as bitrate and codecs differ, the player may not be compatible with all listed files. If you are experiencing issues playing your files on this player, we recommend using a supported conversion tool to reconvert your file to the specifications of the device.

Caution

Modifications not approved by the party responsible for compliance will void the user's authority to operate the equipment.

NOTE- This equipment has been tested and found to comply with the limits for Class B Digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generate, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio or telephone reception, which can be determined by turning the equipment off and on, the user in encouraged to try to correct the interference by one or more of the following measures:
Reorient or relocate the receiving antenna.

Increase the separation between the equipment and the receiver

Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

Caution

Do not use the player in exceptionally cold or hot, dusty, damp or dry environments.

Do not drop, strike, or throw your player. Physical damage to your player will void ALL warranties.

Please charge your battery when:

> The battery power icon shows an empty icon;
> The system automatically shuts down and powers back off when you switch the unit on once again;
> There is no response if you press a button

Please always follow the correct disconnect procedures for your operating system. Do not disconnect power abruptly when the player is being formatted or in the process of uploading or downloading files. Otherwise it may lead to file corruption, firmware failure, and even hardware damage.

- We are not liable for any loss of data stored on this device.
- Please do not dismantle this player. Any disassembly not done by an authorized technician will void ALL warranties
- This product and manual are change without subject to notice.

Appearance
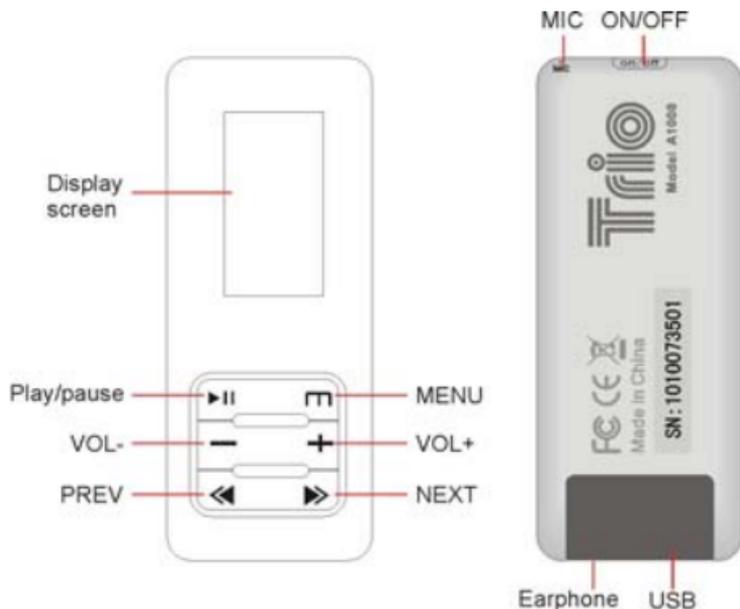

Basic Operations

● **Powering on:** Set the ON/OFF switch to the ON position, then press and hold the PLAY button for 5 seconds.

● **Powering off:** Press and hold the PLAY button for 5 seconds, until the player powers off. Once the device is powered off, set the ON/OFF switch to the OFF position.

Please note that if you do not press and hold the PLAY button before setting the ON/OFF switch, the device will not retain any settings changes you have made.

● **Adjusting the volume:** In Music, Record, Radio modes, press the VOL- or VOL+ buttons to decrease or increase the volume.
● **Charging the player:** To charge your player, set the ON/OFF switch to the ON position and connect the device to a powered USB port.

Loading Files
Using Windows Media Player

(Note: you must use Windows Media Player 10 or later to use this feature.)

(Note: this player does not support DRM encrypted audio files, such as those downloaded from the Overdrive download service.)

1. Open Windows Media Player and connect the MP3 player to a working USB port.

2.   Open the Windows Media Player Sync tab.
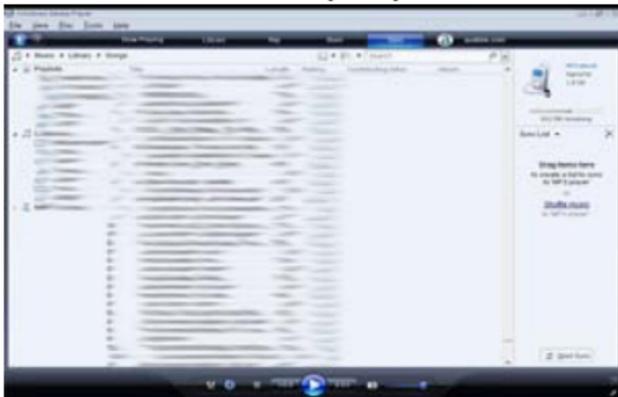

3.   Drag your music to the sync list (on the right of the screen) from the list on the left. Once you have selected the music you wish to add to the player, press "Start Sync".

4.   Windows Media player will load the songs on to your MP3 player.

5.   Once all the songs you have added are synced to the unit, and
Windows Media Player says that is safe to disconnect your MP3 player,
disconnect the device.
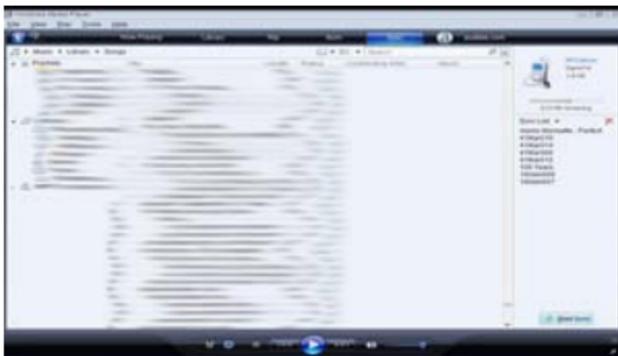

COPY AND PASTE

NOTE- This method is also used to load your lyric or text files to the player.

1. Connect the MP3 player to a working USB port.

2. When the unit is connected to your computer, it will create a gray and green icon in the system tray (lower right hand corner of your desktop). The icon will be called safely remove hardware.
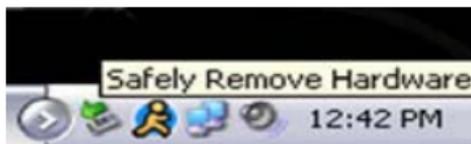

3. Go to the "My Computer" section of your computer. In there you will find a section called "devices with removable storage"
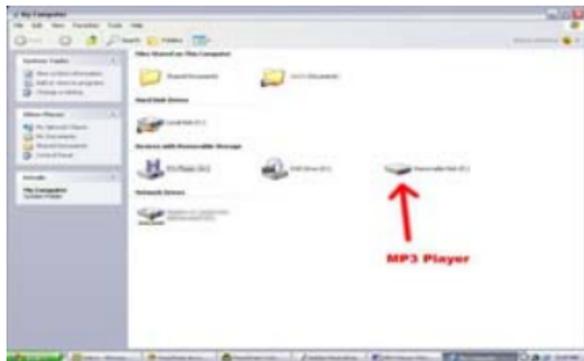

4. Locate the drive created by the unit, generally just called Removable Disk, with a letter in Parenthesis. Drive letters vary depending on your system configuration.

5. Open the drive by either double left clicking on the drive itself, or by right clicking to open the option menu then left click on the desired drive.

6. Locate the music stored on your computer. Generally this is stored in the "My Music" folder of your computer. NOTE: if you are unable to locate the music on your computer, click on start, search, files and folders, then search for "*.MP3".

7. Once you have located the song files, you can right click on the song itself, and select "copy". Open the removable disk drive, right click

9

on in the empty space, and select Paste. This will transfer the song on to your MP3 player.
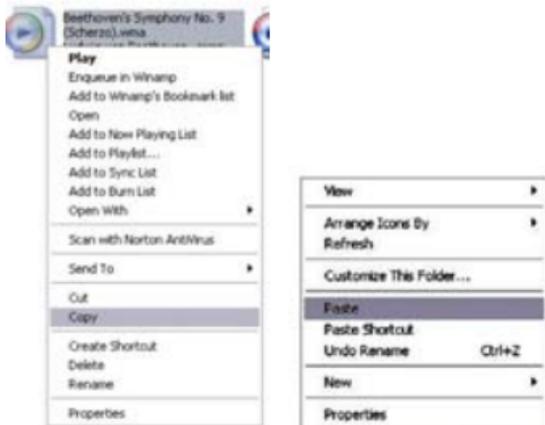

8. Repeat step 7 for as many songs as you want to copy on to the unit.

NOTE: MAC Computers
When connected to your MAC computer, the device will act as a removable drive. Simply drag your MP3 files to the device.
