Dimensions
- Temperature range (operation): 0°C to 40°C
- Temperature range (storage): -20°C to 70°C
- Set dimensions with stand (W x H x D): 167.8 x 135.3 x 100.73 mm

Power
- Power consumption: 3 W
- Power mode supported: AC powered

Outer Carton
- Gross weight: 5.338 kg
- GTIN: 1 87 12581 41302 3
- Outer carton (L x W x H): 52.6 x 24.3 x 25.2 cm
- Nett weight: 3.618 kg
- Number of consumer packagings: 6
- Tare weight: 1.72 kg

Packaging dimensions
- Packaging dimensions (W x H x D): 22.2 x 21.5 x 8 cm
- EAN: 87 12581 41302 6
- Gross weight: 0.723 kg
- Nett weight: 0.603 kg
- Number of products included: 1
- Packaging type: Carton
- Tare weight: 0.12 kg

Product highlights

Multiple viewing modes
Flexible display modes give you the freedom to display your photos one image at a time, in thumbnail mode for quick, easy searches, or to create a slideshow of your most treasured photos.

Multiple-photo collage effect
It's a slideshow effect to show photos in collage form that automatically and randomly compiles different photos together to avoid unattractive borders that may result from photos which are smaller than screen size.

4:3 perfect frame ratio
Philips digital PhotoFrame ensures your photo to be displayed in 4:3 ratio for the best viewing experience.

ImagEn technology
ImagEn is exclusive Philips photo enhancement technology that automatically analyses your photos to correct colour and adjust for optimal contrast: ImagEn separates colours to avoid "crosstalk" adjusts brightness distribution for great visual contrast and corrects Gamma for colour accuracy.

RadiantColor
RadiantColor is an exclusive Philips technology for displaying smaller photos in the optimal 4:3 ratio by extending the colour on the edges of a less-than-full-screen photo to the sides of the screen, eliminating black bars and aspect ratio distortion.

SmartContrast
SmartContrast is Philips technology that analyses the contents you are displaying, automatically adjusting colours and controlling backlight intensity to dynamically enhance contrast for the best digital images and optimum contrast for more entertainment fun when viewing videos or playing games where dark hues are displayed; when you select the Economy mode, contrast is adjusted and backlighting fine-tuned for just-right display of everyday office applications and lower power consumption.

SmartPower
A timer turns PhotoFrame on and off at the hours you select, reducing energy consumption for the sake of our environment saving up to one third of your PhotoFrame energy costs. Three programmable weekday timeslots along with one weekend timeslot give you flexibility to fit your personal schedule.

Viewing photos in USB flash
A USB connector for easy viewing and sharing of photos stored on USB flash drive.
