Product highlights

Rip Plus

With this smart feature, you can easily listen to all your favourite music directly from a portable MP3 player. Simply rip your desired music content from CDs, cassette tapes, radio programs or any device with a line-in connection to the Hi-Fi system directly to your USB device. Rip Plus converts the content from your favourite cassette tapes into MP3 format - without using a PC. You can also preset the timer on your system to record your favourite radio shows and the content will automatically be put onto your portable MP3 player.

USB Direct-MP3/WMA

With the USB Direct mode, you can simply select the music on a USB device and playback all your content. All you have to do is plug in your USB device to playback music or export content from the device.

MAX Sound

MAX Sound technology produces an instant boost in bass, maximizing volume performance and instantly creating the most impressive listening experience with just the touch of a button. Its sophisticated electronic circuitry calibrates existing sound and volume settings, instantly boosting bass and volume to maximum levels without distortion. The end result is a noticeable amplifying of both sound spectrum and volume and a potent audio boost that will add mileage to any music.

MP3 link for portable music

MP3 link allows direct playback of MP3 files from your portable media player on your audio system. Simply connect your portable media player to the built-in MP3 link jack on an audio system and enjoy your MP3 music in superior sound quality.
