- **Set weight:** 2.7 kg
- **Weight incl. Packaging:** 3.5 kg

Tuner/Reception/Transmission

- **TV system:** NTSC

Video Recording

- **Tape speeds:** SP, SLP
- **Recording Media:** VHS Tapes
- **Recording enhancements:** One Touch Record (OTR), Chapter Marker Insertion, Fit To Space
- **Recording system:** NTSC

Product highlights

Progressive Scan

Progressive Scan doubles the vertical resolution of the image resulting in a noticeably sharper picture. Instead of sending a field comprising the odd lines to the screen first, followed by the field with the even lines, both fields are written at one time. A full image is created instantaneously, using the maximum resolution. At such a speed, your eye perceives a sharper picture with no line structure.

Direct Dubbing

Having a Direct Dubbing button allows for the user to start recording from the DVD disc without complicated menu system selection or input/output selection for separates.

Hi-Fi stereo VHS

Hi-Fi Stereo VHS plays back true stereo VHS

Plays it all

Play virtually anything you want - whether they be CDs, (S)VCDs, DVDs, DVD+R, DVD-R, DVD+RW, DVD-RW, DVD+R DL or even VHS tapes. Experience unbeatable flexibility and the convenience of playing all your discs on the one device.
