

## AC/DC Travel and Home DVD/CD/MP3 Player with Lightweight LCD Widescreen

- Engineered for Safe and Easy Travel
- Plays DVD Discs, Audio CDs, CD-R/MP3, and Video CDs
- Advanced 7" LCD Widescreen (16 x 9 Ratio) Viewing Panel
- Carry-Along Design Allows Easy Seat Belt Pass-Through
- Product Meets UL/CUL Safety Standards (Not Just the Power Cord)
- Premium Motorized Vacuum-Load Design
- Dual-Purpose Design Allows Use with Home TVs with AV Inputs
- Full-Featured, Easy-to-Use, 42-Button Remote Control Included
- 3-Dimensional Spatializer N-2-2<sup>1</sup> Audio Processor
- Includes Car-Cigarette Power Adapter, AC Cord and Storage Compartment
- Complete AV In and Out Terminals and Stereo Speakers
- *MobileFlex* Drive Engineering
- Built-In Handle and Convenient Upright Standing Ability for Storage
- Backlighted Front and Top Control Panels for Nighttime Use

LCD DVD/CD/MP3 PLAYER

# BLD774

## Specifications

- **Cabinet**  
Silver/Black.
- **Unit Weight: 5.1kg/unit = 9 lbs/unit**
- **Unit Plus Packaging Weight: 6.1 kg/unit = 11.3 lbs.**
- **Unit Dimensions: 16.9" x 11.1" x 6"**
- **Packaging Dimensions: 21.2" x 9.8" x 16.9"**

## Remote

- **Full-Featured, Easy-to-Use, 42-Button Remote Control Included**

## Picture

- **Advanced 7" LCD Widescreen (16 x 9 Ratio) Viewing Panel**  
The advanced LCD viewing panel delivers a high-contrast picture even under outdoor lighting conditions. The LCD screen substantially reduces both the overall weight and size of the product for travel and vehicle convenience.
- **Protective Clear LCD Display Cover**  
Clear scratch-resistant cover protects LCD display.

## Sound

- **3-Dimensional Spatializer N-2-2' Audio Processor**  
Provides outstanding 3D audio realism for DVD movies. Spatializer audio processing works with the built-in stereo speakers and with optional stereo headphones. For custom installed vehicle audio systems and home entertainment use, RCA audio outputs are provided.
- **Stereo Audio/Video Pass-Through to Stereo Headphones**
- **Built-In Stereo Speakers**

## Convenience

- **Engineered for Safe and Easy Travel**  
Product for use in rear seat while vehicle is in operation.
- **Carry-Along Design Allows Easy Seat Belt Pass-Through**  
Allows a secure placement in vehicles using standard rear seat center belts. With this open underside design, seat belts can be pulled through quickly and easily, for a snug, tight fit for safe travel.
- **Product Meets UL/CUL Safety Standards (Not Just the Power Cord)**
- **Full, Complete UL-Approved Safety Design From Front to Back, Inside and Out**  
RCA engineering includes the more comprehensive multi-test safety approval. Rather than a simple test of the power cord, this safety coverage includes the complete unit including the cabinet, power supply, car-cigarette lighter adapter, and all circuitry. Additionally, RCA engineering has carefully designed the unit for interior car safety.

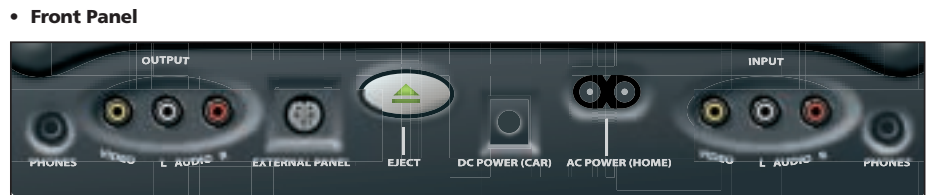

The unit features a collapsing screen, with a "drop-forward" LCD panel. The interior and driver facing panel cluster are backlit for quick access, but without distraction. All audio video cables, including headphone jacks, exit the unit conveniently behind the view screen, again preventing terminal plugs from facing toward viewers. The new cross-handle design allows virtually all rear center seat belts to be lapped through the unit, positioning the unit for a more secure ride.

## Convenience (continued)

- **Plays DVD Discs, Audio CDs, CD-R/MP3 and Video CDs**
- **Simple, Easy-Use Controls with Full-Feature Menus**  
All standard DVD and CD functions are quick and easy, and the full-function remote duplicates all needed options for use at home, at business meetings, or in a hotel room. Color, tint, brightness and contrast are fully adjustable, and DVD discs can be set to play with a one-touch control, or you can access MENU control for full functionality, including CD-R/MP3 discs, audio CDs, or video CDs.
- **MobileFlex Design Allows Safe and Clean Convenience**  
The *MobileFlex* Slot-Loading disc system and transport are designed to better withstand road vibrations, even during play. The special motorized disc-loading slot reduces the threat of dust, dirt and spills that often damage less expensive tray models. This vacuum-load design also eliminates sharp edges and accidental breakage that can happen with low cost CD exit drawers while traveling. Additionally, both the DC transformer and the AC step-down housing are built-in, allowing connecting cables to be sleek and easy to use. No heavy bulky boxes at the end of the AC cord—just a UL approved two-prong connector.
- **Premium Motorized Vacuum-Load Design**  
Automatically aligns discs being inserted and eliminates overhanging CD exit trays for added safety and easy care.
- **Built-In Handle and Convenient Upright Standing Ability for Storage**
- **Backlit Front and Top Control Panels for Nighttime Use**
- **Dual-Purpose Design Allows Use with Home TVs**  
This unit includes standard audio and video outputs for easy playback through larger TVs with AV inputs. The unit can play with the built-in screen playing, or also with the LCD view screen down (closed and off).
- **Expansion AV (with DC) Port**  
Allows an additional video screen with audio to be added as an option. The output includes DC power.
- **Includes Car-Cigarette Power Adapter, AC Cord and Storage Compartment**

## Connections

- **Complete A/V In and Out Terminals and Speakers**  
This unit includes stereo audio and video input and output terminals to allow stereo game units, camcorders, and other devices to be connected and pass signals through to the built-in speakers or the two sets of stereo headphone jacks. An Expansion Output is also provided so a second optional LCD viewing screen with audio can be added.
- **AC and DC In Jack**  
Allows for connection of AC cord and car cigarette adapter (both included).
- **Dual Headphone Jacks**  
Two users can listen privately with optional Stereo headphones.

## Plus

- **Limited Warranty**
  - One year for parts and labor.
