

Features and Benefits

Increase the Coverage Area of Your Wireless Network

The DWL-G710 is designed to expand the wireless coverage area in a home, office, or small hotspot. For all users on the network, the increased coverage area grants greater mobility and more freedom for roaming throughout the location. Extend the wireless signal into those hard-to-reach areas and enjoy the convenience of wireless access.

Works with Virtually all 802.11g Wireless Devices

Compatibility is no longer an issue when it comes to expanding an existing wireless signal. No longer being limited to a list of compatible products, the DWL-G710 works with virtually all 802.11g network router and access points. Save the hassle of finding a compatible product, the DWL-G710 is your solution. In addition, any client 802.11g and 802.11b device can communicate with the DWL-G710.

Supports Standard WEP Security

As data wirelessly travels over the network, this Range Extender supports 64/128-bit WEP security to ensure all your data communication is secure from prying eyes.

Backward Compatible to 802.11b

The DWL-G710 is fully compatible with all IEEE 802.11g devices and is backward compatible to 802.11b. This means all 802.11b-compliant wireless devices can still communicate with your DWL-G710.
