Product highlights

Free internet radio stations

The Internet radio feature keeps you abreast of news and entertainment updates from thousands of online radio stations worldwide. Connect your Streamium to the Internet and listen to your favorite online programs on an audio system, without having to turn on your PC.

Wireless music playback

Free your entire music collection captured in the PC and play it back through your music system with Streamium network music player ! With UPnP connection, the Streamium network music player can access the music stored in your PC and stream it to a music system, so you can enjoy your favorite music in great sound quality.

Rhapsody® online music service

With Streamium network music player, you can instantly access millions of songs anytime through Rhapsody online music services. Stream the songs you like to your Streamium network music player and play them on your favorite audio system without even having to turn on your PC. Just make sure that your Streamium network music player is connected to the Internet.

FullSound™

What is music without heart and soul? Philips' innovative FullSound technology faithfully restores sonic details to compressed music, dramatically enriching and enhancing it, so you experience truly immersive music – without any distortion.
