

V7 CASE

FLIGHT CASE

PROTECT V7. This ATA-style flight case is designed specifically for V7, the next-generation turntable software controller. Don't risk your investment with a gig bag or worse, no protection. Get your V7s to and from the gig with the security that they'll still be in the same condition.

Protect your rig with the only case designed specifically for V7.

FEATURES:

- ATA-style flight case for V7
- Professional protection and housing for V7
- Wood-and-metal construction with dense foam padding
- Removable front and rear panels
