

DYNAMICS COMPRESSOR DC9

Classic Dynamics Compressor

Thank you for showing your confidence in us by purchasing the BEHRINGER DYNAMICS COMPRESSOR DC9. This ultimate effects pedal is specifically designed to give a stable dynamics and an endless sustain to your guitar by evening out the signal without degrading the original sound. You can also use the DC9 to boost the overall volume of your instrument for solo parts.

A compressor limits the dynamic range of a signal by attenuating signal peaks exceeding a certain threshold level. The amount of gain reduction is determined by the compression ratio. The result of compression is an attenuation of the difference between loudest and softest playing which achieves a more powerful and punchy tone.

1. Controls

- 1 The **SENSITIVITY** control determines the compression ratio. The higher you set the SENSITIVITY value, the more the compression intensifies. In other words, as you increase the SENSITIVITY, you reduce the level difference between softest and loudest playing.
- 2 The **OUTPUT** control adjusts the output level. Use it to compensate the gain reduction resulting from the compression or to boost the output level of your instrument.
- 3 The **LED** illuminates when the effect is activated. It also serves as a battery level indicator.
- 4 Depress the footswitch to activate/deactivate the effect.
- 5 Use this 1/4" TS **IN** connector to plug in the instrument cable.
- 6 The 1/4" TS **OUT** connector sends the signal to your amp.

Use the **DC IN** connection to plug in a 9 V power supply (not included).

To install or replace the 9 V battery, remove the bottom side of the unit taking the four screws off.

♦ **The DC9 has no on/off switch. As soon as you connect the jack to the in connector, the DC9 is switched on. When the DC9 is not being used, remove the jack from the in to extend the battery life.**

The **SERIAL NUMBER** is located on the bottom side of the device.

2. Safety Instructions

Do not use near water, or install near heat sources. Use only authorized attachments/accessories. Do not service product yourself. Contact our qualified servicing personnel for servicing or repairs, especially when power supply cord or plug is damaged.

3. Warranty

Please register your new BEHRINGER equipment right after your purchase by visiting <http://behringer.com> and read the terms and conditions of our warranty carefully.

4. Specifications

In

Connector	¼" TS
Impedance	1 MΩ

Out

Connector	¼" TS
Impedance	1 kΩ

Power Supply

9 V $\overline{\sim}$, 100 mA regulated

BEHRINGER PSU-SB

USA/Canada	120 V \sim , 60 Hz
Europe/U.K./ Australia	230 V \sim , 50 Hz
China/Korea	220 V \sim , 50/60 Hz
Japan	100 V \sim , 50/60 Hz
Power connector	2 mm DC jack, negative center
Battery	9 V type 6LR61
Power consumption	9 mA

Physical/Weight

Dimensions (H x W x D)	approx. 2 ½ x 4 ¾ x 2 ⅔" approx. 56 x 113 x 69 mm
Weight	approx. 0.53 lbs / 0.24 kg
