

Memory Carrier

The **UM3060** is a universal external memory USB card reader/writer that reads from and writes to most popular flash cards via a high-speed USB 2.0 interface at a transfer rate up to 480Mbps. To secure your investment, this device is backwards compatible with USB 1.1.

The **UM3060** comes with 6 types of memory flash card formats including: SmartMedia™ Card; Sony MemoryStick™ Card; SD Memory Card™; MultiMediaCard™, CompactFlash®; and IBM MicroDrive™. Plus, the **UM3060** is a compact sized personal storage device with a built-in high capacity 2.5" Hard Disk Drive. When connecting to a host computer, the **UM3060** enables you to transmit large amounts of data immediately among the memory cards, the HDD and the host computer through a USB 2.0/1.1 cable.

Features

- Fully compatible with USB 2.0
- USB specification revision 1.1 compatible
- Download files via USB high-speed transfer rate up to 480Mbps
- Support Windows 98, ME, 2000, XP, MAC and Linux
- Support to build in 2.5" HDD, **optional** up to 60GB
