#### Jamo 660A2

The 660A2 is a two-way in-wall speaker in the comprehensive Architectural Series, consisting of high-quality speakers at astonishingly affordable prices.

The 660A2 is one of our most popular in-wall models, as its size and performance makes it exceptionally versatile. The pivoting tweeter can

easily be directed toward the sweet spot in any environment, providing the best possible listening conditions.

The 660A2 is a versatile speaker delivered with a white paintable grille that can be color-matched before mounting, making it easier to create "invisible" solutions for the wall.
