PGP Support Package for BlackBerry devices installation

About the PGP Support Package for BlackBerry devices

The PGP® Support Package for BlackBerry® devices is designed to permit you to send PGP protected messages from—and receive PGP protected messages to—your BlackBerry device, if you are able to send PGP protected messages from and receive PGP protected messages to your computer. The PGP Support Package for BlackBerry devices supports messages protected using the OpenPGP standard and, if your BlackBerry device is associated with an email account that uses a BlackBerry® Enterprise Server that supports them, messages protected using the PGP/MIME standard.

Prerequisites: Installing the PGP Support Package for BlackBerry devices

- Verify that you have installed the BlackBerry® Device Software on your computer. The installation file for the PGP® Support Package for BlackBerry devices uses components from the BlackBerry Device Software.
- Verify that you have installed and configured the PGP® Universal Satellite or PGP® Desktop Professional on your computer. To determine the correct version for your configuration, see the PGP documentation.
- Verify that you have obtained the installation file for the PGP Support Package for BlackBerry devices from PGP Corporation or an authorized PGP reseller.
- Verify that your BlackBerry® Enterprise Server supports the PGP Support Package for BlackBerry devices.
