Easy Setting Guide

The order of setting

|		
1 *Prepare the speakers* See below	**2** *Place the speakers* See below	**3** *Connect the cables* See over
4 *Turn on the main unit* See over	*Easy setup* *See Easy setup screen*	

1 Prepare the speakers

STEP 1

Label each speaker cable by attaching the numbered sticker at the position indicated in the illustration. Be sure to match the number on each sticker with the circled number in the illustration.
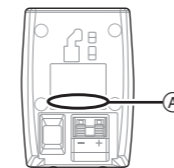

e.g., Front speaker Lch

WHITE   speaker
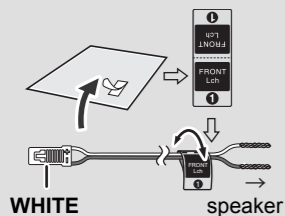

Refer to the rear label of the speaker before connecting the corresponding cable.
Verify the type of speaker with the label on the rear of the speaker.

e.g.,

| Speakers	Ⓐ
Front speakers	FRONT/AVANT
Centre speaker	CENTER/CENTRE
Surround speakers	SURROUND/AMBIOPHONIE

Ⓐ

STEP 2

Connect the speaker cables.
Insert the wire fully, taking care not to insert beyond the wire insulation.

3 Connect the cables

It is possible to play back 3D videos and 3D still pictures by connecting this unit with a 3D compatible TV.
For detailed information, refer to the operating instructions.

Connect the cables by colour or by the numbers indicated in the illustration to the appropriate terminals on the rear panel of the unit.

HDMI cable (not supplied)
(Recommended for highest quality picture)

HDMI (ARC)

HDMI

If the HDMI terminal is labeled "HDMI (ARC)", you can enjoy TV sound and pictures with a single HDMI cable.
If the HDMI terminal is not labeled "HDMI (ARC)", an "Audio cable" or "Optical digital audio cable" is required to listen to sound from the TV.

Audio connection
For best quality audio, use the HDMI cable (with an ARC compatible TV) or an optical digital audio cable. If your TV does not support the above, use the audio cable.
