SY DVIAM-RGBHVF

DVI-A Male to BNC Female Adapter

DESCRIPTION

The Extron **SY DVIAM-RGBHVF** adapter is designed for connecting HDTV receivers, graphics cards, and digital displays with DVI-I connectors into analog RGBHV A/V systems. Manufactured using Extron's five conductor Mini High Resolution cable, the SY DVIAM-RGBHVF adapter supports high resolution RGBHV and HDTV video signals. The Extron SY DVIAM-RGBHVF is terminated with a DVI-A male connector to interface with the analog contacts of the DVI-I connector on one end and five 75 ohm machined BNC female connectors on the other end.

Note: SY DVI adapter is only compatible with DVI-I connectors that utilize their analog contacts. Digital signals are not supported with this adapter. Check your source (HDTV receiver, graphics card), or digital display manufacturer's specifications to ensure their DVI-I connector supports analog RGBHV. This adapter is not compatible with DVI-D connectors.

DVIAM-VGAF

DVI-A Male to 15-pin HD Female Cable

DESCRIPTION

The Extron **DVIAM-VGAF** is a DVI-A male to 15-pin HD female 6" (15 cm) cable to connect HDTV receivers, graphics cards, and digital displays with DVI-I connectors into analog RGBHV A/V systems. The DVI-A male to VGA female cable supports high resolution RGBHV and HDTV video signals. The Extron DVIAM-VGAF is terminated with a DVI-A male connector to interface with the analog contacts of the DVI-I connector on one end and 15-pin HD female connector on the other end.

Note: DVIAM-VGAF cable is only compatible with DVI-I connectors that utilize their analog contacts. Digital signals are not supported with these cables. Check your source (HDTV receiver, graphics card), or digital display manufacturer's specifications to ensure their DVI-I connector supports analog RGBHV. The DVIAM-VGAF adapter is not compatible with DVI-D connectors.

DVIIM-VGAF/DVIIF

DVI-I Male to 15-pin HD Female and DVI-I Female "Y" Adapter

DESCRIPTION

The Extron **DVIIM-VGAF/DVIIF** is a DVI-I male to 15-pin HD female and DVI-I female "Y" adapter designed for connecting HDTV receivers and graphics cards to both digital displays with digital DVI-I inputs and analog RGBHV A/V systems. The DVI-I male to VGA female and DVI-I female "Y" adapter supports high resolution RGBHV and HDTV video signals. The DVIIM-VGAF/DVIIF is terminated with a DVI-I male connector with the analog contacts terminated to the 15-pin HD female connector and the digital contacts terminated to the DVI-I female connector (analog signal is not supported to this connector).

Note: DVIIM-VGAF/DVIIF is only compatible with DVI-I connectors that utilize both analog and digital contacts. Check your source (HDTV receiver, graphics card) manufacturer's specifications to ensure their DVI-I connector supports both analog and digital signals. Analog signals are only routed to the VGA female connector.
