VOICE CONTROL

BlueAnt®

V1 DUAL MIC VOICE CONTROL

World's First Voice Controlled Bluetooth® Headset

The BlueAnt V1 Voice Controlled Headset allows users to easily control most functions of their Bluetooth headset using the revolutionary BlueGenie™ Voice User Interface. Talk to it and it talks to you. Ask it for assistance and it will help you get the command you want. No longer will Bluetooth headset users struggle to coordinate combinations of button pushes and flashing lights. One button gives you control of the entire function set of the V1, in an easy to use voice interface.

- > Revolutionary BlueAnt Voice Control User Interface
