

Serial Interface Module

SIM06-1

- **Extends fire detection control panels Series BC06 by an RS232C interface**
- **Transfer rate 1200, 2400, or 4800Baud**
- **Galvanic separation**

Description

The Serial Interface Module SIM06-1 provides fire detection control panels Series BC06 with a galvanically separated RS232C interface. A protocol printer or a PC

with terminal function can be connected to the fire detection control panel by means of the component. The transfer rate can be set to 1200, 2400, or 4800Baud.

Specifications

Current consumption at 24V	typ. 15mA
Interface	RS232C, galvanically isolated, up to 4800Baud
Signal lines	RxD, TxD
Connection type	D-SUB plug, 9-pin
Ambient temperature	-5°C to +50°C
Dimensions L × W × H	86 × 36 × 17 (mm)
Weight	30g
Part No.	210215
Order name	Serial Interface Module SIM06-1
