

## motorola H780

### Quick Start Guide

## BEFORE YOU BEGIN

Before using this product, read the Important Safety and Legal Information pamphlet and follow its instructions.

Take a moment before you get started to familiarize yourself with your new H780 Headset.

## 1

### CHARGE Your Headset's Battery

Charge your headset's battery for 2 hours:

- 1 Plug the Motorola charger into the end of the headset.

The indicator light turns red when the battery is charging. It may take up to 1 minute for the indicator light to turn on. When the headset's battery is fully charged (about 2 hours), the indicator light turns green.

- 2 Disconnect the charger.

*Note: Headset is not functional while charging.*

*Note: This product uses a lithium ion, rechargeable, non-replaceable battery. Under normal use, the expected life of the rechargeable battery is approximately 400 charges.*

## 2

### START BLUETOOTH FEATURE

#### Your Phone

Your phone's Bluetooth feature is off by default. To use your headset, you must turn on the Bluetooth feature in your phone.

For most Motorola phones (from home screen):

- 1 Press **[Menu]** (Menu) > **Settings** > **Connection** > **Bluetooth Link** > **Setup**.
- 2 Scroll to **Power**.
- 3 Select **Change**.
- 4 Scroll to **On**.
- 5 Press **Select** to turn on the Bluetooth feature. The Bluetooth feature remains on until you turn it off.

*Note: These steps are for most Motorola phones. For other phones, see your phone's user's guide.*

# 3

## PAIR Your Headset

Before you can use your headset, you must pair (link) it with your phone.

### Step A - ENSURE HEADSET IS IN PAIRING MODE

Power on the headset by sliding Power switch to the On position. The indicator light first flashes during power up, then initiates pairing. After a few moments, the indicator light will be steadily lit in blue to indicate headset is in pairing mode.

Indicator Light  
(steady blue for pairing)

If the headset does not enter pairing mode, see **TROUBLESHOOTING** for help.

## PAIR Headset and Phone

### Step B - SET YOUR PHONE TO LOOK FOR YOUR HEADSET

For most Motorola phones:

- 1 On your Motorola phone, press  (Menu) > **Settings > Connection > Bluetooth Link > Handsfree > Look for Devices.**

The phone lists Bluetooth devices it finds.

- 2 Select **Motorola H780.**
- 3 Select **OK** or **Yes** to pair your headset with your phone.
- 4 Enter the passkey: **0000**
- 5 Select **OK.**

When your headset successfully pairs with your phone, the indicator light flashes purple and blue.

*Note: These steps are for most Motorola phones. For other phones, see your phone's user's guide.*

## TROUBLESHOOTING

### My headset will not enter pairing mode.

Make sure that any devices previously paired with the headset are turned off. If the indicator light is flashing in blue, first turn off the other device, then using the Power switch, turn the headset off and on. The indicator light becomes steadily lit in blue indicating the headset is now in pairing mode.

### My phone doesn't find my headset.

Make sure the indicator light on your headset is on (lit in blue) and steady when your phone is searching for devices (see step 3).

### My headset worked before but now it's not working.

Make sure your phone is on and the Bluetooth feature is turned on in your phone (see step 2). If the Bluetooth feature was turned off or was turned on only temporarily, you may need to restart the Bluetooth feature (see step 2) and pair your phone and headset again (see step 3).

### My headset will not pair with my phone.

Turn the headset on by using the Power switch. Press the Call button and both Volume buttons for 5 seconds. The indicator light turns solid blue. The headset is now in pairing mode (see step 3B) to complete the pairing process.

# 4

## TEST AND USE

Your phone and headset are now paired and ready to make and receive calls. To confirm they are operating properly, make a call:

- 1 Place the headset over your ear.
- 2 On the phone, dial the number you want to call and press **SEND** key on your phone.
- 3 If your phone and headset are successfully paired, you will hear ringing on the headset.

After you have successfully paired your phone and headset, you don't need to repeat these steps. For daily use, ensure that your headset is turned ON and that your phone's Bluetooth feature is ON.

## USING A S

Multipoint technology allows you to make and receive calls from two Bluetooth enabled devices like your personal and business phones.

To pair a second phone to your headset, follow these steps:

- 1 Turn off any phones or devices that are already paired with your headset.
- 2 Turn off your headset by turning off the Power switch.
- 3 Perform Step 2 ("Start Bluetooth Feature"), and Step 3 ("Pair"), and Step 4 ("Test and Use") to pair your headset with your second phone.

To reconnect your headset with your first phone (and thus be connected to both phones), follow these steps:

- 1 Turn on first phone.

## SECOND PHONE?

- 2 Use your first phone to connect to your headset.
  - a On your Motorola phone, press  (Menu) > **Settings** > **Connection** > **Bluetooth Link** > **Audio Devices**.  
The phone lists Bluetooth devices it finds.
  - b Select **Motorola H780**.
  - c Select **OK** or **Yes**.

Your headset is now connected to both phones. The last paired phone (your second phone) is now your primary phone for voice dial functionality.

After you have successfully paired both phones with your headset, you don't need to repeat these steps. For daily use, ensure that your headset is turned ON and that your phone's Bluetooth feature is ON.

## TIPS FOR USING H780 WITH TWO PHONES

Use the following tips when using H780's multipoint technology:

- Incoming calls can be answered from both phones:
  - When answering a call, the idle phone is disconnected from the headset.
  - When the call ends, the idle phone is automatically reconnected to the headset.
- Last number redial dials the last outgoing call made from the primary phone.
- Voice dial is accessible from your primary device (last paired phone) by tapping the Call button and speaking the name after the tone.
- If your headset does not automatically reconnect to both phones, turn the H780 off and on again to reconnect.

## USING YOUR H780

See  
**Features and  
Functions Guide**  
on the reverse side  
for information on  
using your H780

# Features and Functions Guide

**H780  
Bluetooth®  
Handsfree Headset**

**IMPORTANT:**  
Be sure to first follow the  
**Quick Start Guide**  
on the reverse side  
of this guide  
to complete initial setup  
of your H780.

## TURNING H780 ON AND OFF

**To turn ON your H780**, slide the Power switch towards the indicator light. The indicator light first flashes blue for several seconds, then:

- flashes blue (if paired and connected with another device).
- becomes steadily blue (if ready to be paired).

**To turn OFF your H780**, slide the switch toward the charging plug (the orange color under the switch is displayed). The indicator light will turn off.

## EAR CUSHIONS AND YOUR HEADSET

Your H780 headset is supplied with multiple ear cushions. Your headset's performance is greatly dependent upon achieving a good fit on your ear. Therefore, we recommend trying all the supplied ear cushions with your headset.

The ear cushion is fitted onto the end of your headset's earpiece speaker like shown, and placed onto your ear when using your headset.

## WEARING THE HEADSET

To wear your headset, flex the earhook and loop it over your ear as shown.

Be sure to position the ear cushion into your ear canal for optimal audio performance and comfort.

## CHANGING FOR USE ON OTHER EAR

You can wear your H780 headset on your left or right ear. The headset comes ready for the right ear. To change the headset for the left ear:

- 1 Gently lift and pull the top of the earhook up and off speaker stem, as shown.

- 2 Flip the headset over.

- 3 Attach the earhook to the speaker stem, as shown.

## QUICK BATTERY CHECK

While turned on and not on a call, you can check your headset's battery charge level by pressing and holding both Volume buttons.

*Note: This feature does not work when headset is in pairing mode.*

The indicator light displays charge status until you release the buttons.

Headset Indicator	Available Talk Time
Red	Less than 2 hours
Yellow	2 to 4.5 hours
Green	Greater than 4.5 hours

## NOISE CANCELLATION BUTTON

Your H780 headset has a noise cancellation button that enables you to hear the difference of dual-microphone noise cancellation.

Noise cancellation is always on each time a new call is received or placed. To turn the feature off (or back on), tap the Noise Cancellation button while in a call.

## European Union Directives Conformance Statement

**CE** Hereby, Motorola declares that this product is in compliance with:

- The essential requirements and other relevant provisions of Directive 1999/5/EC.
- All other relevant EU Directives.

The above gives an example of a typical Product Approval Number.

You can view your product's Declaration of Conformity (DoC) to Directive 1999/5/EC (to R&TTE Directive) at [www.motorola.com/rtte](http://www.motorola.com/rtte). To find your DoC, enter the product Approval Number from your product's label in the "Search" bar on the web site.

## MAKING CALLS

Function	Action
Make a voice dial call (Primary phone)	Tap the Call button and speak the name after the tone
End a call	Tap the Call button, and hear a high-to-low tone
Answer a call	Tap the Call button, hear the ring tone, then a low-to-high tone
Reject a call	Press and hold either Volume button until you hear a tone

*Note: Some features are phone/network dependent.*

## MAKING CALLS *CONTINUED*

Function	Action
Redial last call	Press and hold the Call button until you hear a tone
Answer a second incoming call	Press and hold the Call button (places first call on hold), and hear a tone
Reject second incoming call	Press and hold either Volume button until you hear a tone
Transfer a call from the headset to the phone	Slide the power button to the OFF position
Mute or unmute a call	Tap both Volume buttons until you hear a mute tone

*Note: Your H780 supports both Handsfree and Headset Profiles. Accessing call functions depends upon which profile your phone supports. See your phone's user's guide for more information.*

## AUDIO TONES

Audio Tone	Headset Status
Ring tone	Incoming call
Short tone	Phone network not available
High to low tone	End call
Two short tones when pressing Volume button during a call	Volume at minimum or maximum
Ascending tone	Mute enabled
Low tone (repeated every 15 seconds)	Mute reminder
Descending tone	Mute disabled
Low to high tone	Connection confirmation/voice activation
No audio indications; deteriorating quality	Out of range
Two tones repeated every minute	Low battery

## INDICATOR LIGHT With No Charger Plugged In

Headset Indicator	Headset Status
Off	Power off
Three blue flashes	Powering on/off
Steady blue	Pairing mode
Quick blue/purple flashes	Pairing successful
Quick blue flash	Incoming/outgoing call on primary phone
Quick purple flash	Incoming/outgoing call on secondary phone
Slow blue pulse	Connected (on a call)
Slow blue flash	Standby (phone connected—not on a call)
Slow green flash	Standby (two phones connected—not on a call)

*Note: After 20 minutes on a call or of inactivity, the light stops flashing to conserve power, but the headset remains on.*

*Note: To disable the indicator light, press and hold both Volume buttons while turning headset on.*

## INDICATOR LIGHT *CONTINUED* With No Charger Plugged In

Headset Indicator	Headset Status
Red flash	Idle (not connected to phone)
Slow purple pulse	Connected call muted
Quick red flash	Low battery

**Tip:** Set your primary and secondary phones to different ringtones to know which phone is ringing when wearing the headset. See "Tips for using H780 with Two Phones" for more information.

## INDICATOR LIGHT With the Charger Plugged In

Headset Indicator	Headset Status
Red	Battery level less than 50% charge
Yellow	Battery level more than 50% charge
Green	Charging complete
