DIY Security Cams 2 Color Video Cameras

With **BONUS** Tripod & Imitation Dome Camera

The DIY (Do-It-Yourself) Security Cams pack featuring two color cameras, bonus adjustable tripod and an imitation dome camera is a simple, low cost solution to DIY home and business indoor surveillance needs. With one color camera equipped with a long view lens and the other with a wide view lens - you can keep an eye on your home or office simply by connecting the cameras to your TV, DVR, VCR or security monitor. The DIY Security Cams have a built-in microphone to hear sounds and are lightweight and tiny in size making them ideal for discreet, indoor monitoring purposes!
