

MOTOPURE™ H15

Quick Start Guide

BEFORE YOU BEGIN

Before using this product, read the Important Safety and

Take a moment before you get started to familiarize yourself with your new MOTOPURE H15 Bluetooth® Handsfree Headset. Along with the headset, a travel charger and desktop charger are provided for both charging and storage.

WHEN YOU BEGIN

Read the Legal Information pamphlet and follow its instructions.

Familiarize yourself with your new MOTOPURE H15 headset, a desktop charger is provided for both charging and storage.

START HERE >

1

CHARGE

Your Headset's Battery

You need to charge your headset using the included travel charger or desktop charger.

Charging with travel charger:

- 1 Remove plastic seal off of ear cushion on speaker.
- 2 Plug the Motorola charger into the end of the headset.

The indicator light turns red when the battery is charging. It may take up to 1 minute for the indicator light to turn on. When the headset's battery is fully charged (about 2 hours), the indicator light turns green.

- 3 Disconnect the charger.

Note: Headset is not functional while charging with travel charger.

Charging with desktop charger:

- 1 Plug in the travel charger into the charger port.
- 2 Plug the headset into the port on the desktop charger as shown.

The desktop charger light is lit, and the headset indicator light turns red when the battery is charging. It may take up to 1 minute for the headset indicator light to turn on. When the headset's battery is fully charged (about 2 hours), the headset indicator light turns green.

- 3 Remove headset from charger when ready to use.

Note: Headset is functional while charging with desktop charger with the boom open. To operate, remove from charger

Note: This product uses a lithium ion, rechargeable, non-replaceable battery. Under normal use, the expected life of the rechargeable battery is approximately 400 charges.

2

START BLUETOOTH FEATURE

Your Phone

Your phone's Bluetooth feature is off by default. To use your headset, you must turn on the Bluetooth feature in your phone.

For most Motorola phones (at the main menu):

- 1 Press **[Menu]** (Menu) > **Settings** > **Connection** > **Bluetooth Link** > **Setup**.
- 2 Scroll to **Power**.
- 3 Select **Change**.
- 4 Scroll to **On**.
- 5 Press **Select** to turn on the Bluetooth feature. The Bluetooth feature remains on until you turn it off.

Note: These steps are for most Motorola phones. For other phones, see your phone's user's guide.

3

PA Your Headset

Before you can use your headset, you must pair (link) it with your phone.

Step A - ENSURE HEADSET IS IN PAIRING MODE

Open the headset boom to power on the headset and initiate pairing. The indicator light first flashes during power up, then initiates easy pairing. After a few moments, the indicator light will be steadily lit in blue to indicate headset is in pairing mode.

Pairing and Phone

Step B - SET YOUR PHONE TO LOOK FOR YOUR HEADSET

For most Motorola phones:

- 1 On your Motorola phone, press **[Menu]** (Menu) > **Settings** > **Connection** > **Bluetooth Link** > **Handsfree** > **Look for Devices**.
- The phone lists Bluetooth devices it finds.
- 2 Select **Motorola H15**.
- 3 Select **OK** or **Yes** to pair your headset with your phone.
- 4 Enter the passkey: **0000**
- 5 Select **OK**.

When your headset successfully pairs with your phone, the indicator light flashes purple and blue.

Note: These steps are for most Motorola phones. For other phones, see your phone's user's guide.

TEST AND USE

Your phone and headset are now paired and ready to make and receive calls. To confirm they are operating properly, make a call:

- 1 Place the headset over your ear. See "Wearing the Headset" on the reverse side of this guide.
- 2 On the phone, dial the number you want to call and press **SEND** key on your phone.
- 3 If your phone and headset are successfully paired, you will hear ringing on the headset.

After you have successfully paired your phone and headset, you don't need to repeat these steps. For daily use, ensure that your headset is turned ON and that your phone's Bluetooth feature is ON.

To conserve power, close the boom to turn your headset off. Re-open the boom to make a call.

USING A SECOND PHONE?

Multipoint technology allows you to make and receive calls from two Bluetooth enabled devices like your personal and business phones.

To pair a second phone to your headset, follow these steps:

- 1 Turn off any phones or devices that are already paired with your headset.
- 2 Turn off your headset by closing the headset boom.
- 3 Perform Step 2 ("Start Bluetooth Feature"), Step 3 ("Pair"), and Step 4 ("Test and Use") to pair your headset with your second phone. Your most recently paired phone is now your primary phone for voice dial functionality.
- 4 To connect to both phones, turn on first phone.
- 5 Close the headset boom and then re-open it. The headset automatically connects to both phones. The last paired phone is now your primary phone for voice dial functionality.

TIPS FOR USING H15 WITH TWO PHONES

Use the following tips when using H15's multipoint technology:

Incoming calls can be answered from both phones:

- When answering a call, the idle phone is disconnected from the headset.
- When the call ends, the idle phone is automatically reconnected to the headset.

Last number redial dials the last outgoing call made from the primary phone.

Voice dial is accessible from either phone via different key actions:

- For your primary device (last paired phone), tap the Call button until you hear the tone.
- For your secondary device (other paired phone), tap the Call button and either Volume button until you hear the tone.

USING YOUR H15

See
**Features and
Functions Guide**
on the reverse side
for information on
using your H15

TROUBLES

My headset will not enter pairing mode.

Make sure that any devices previously paired with the headset are turned off. If the indicator light is flashing in blue, first turn off the other device, then close and reopen the headset boom. The indicator light becomes steadily lit in blue indicating the headset is now in pairing mode.

My phone doesn't find my headset.

Make sure the indicator light on your headset is on (lit in blue) and steady when your phone is searching for devices (see step 3).

My headset worked before but now it's not working.

Make sure your phone is on and the Bluetooth feature is turned on in your phone (see step 2). If the Bluetooth feature was turned off or was turned on only temporarily, you may need to restart the Bluetooth feature (see step 2) and pair your phone and headset again (see step 3).

SHOOTING

My headset will not pair with my phone.

If the LED is solid blue, open the boom flip, and press and hold both Volume buttons and the Call button for about 10 seconds. The indicator light flashes (Green, Red, Blue) 3 times and then become steadily lit. The headset is now in pairing mode. See step 3B to complete the pairing process.

If the LED is blinking red, press and hold both Volume buttons and the Call button for about 10 seconds. The indicator will become steadily lit blue. The headset is now in pairing mode. See step 3B to complete the pairing process.

Features and Functions Guide

H15 Bluetooth® Handsfree Headset

IMPORTANT:
Be sure to first follow the **Quick Start Guide** on the reverse side of this guide to complete initial setup of your H15.

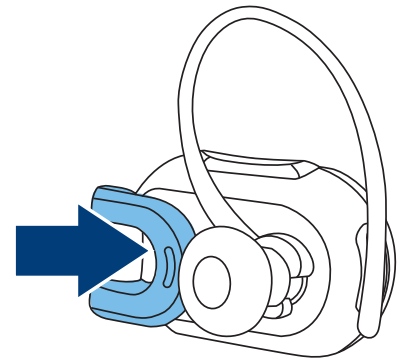

TURNING HEADSET ON AND OFF

To turn ON your H15, open the headset boom. The indicator light first flashes blue three times, then:

- flashes blue slowly after flashing purple/blue (if paired and connected with a phone), or
- becomes steady blue (if ready to be paired).

To turn OFF your H15, close the headset boom. The indicator light will turn off.

Boom
Open To Turn On
Close To Turn Off

EAR CUSHIONS AND Y

Your H15 headset is supplied with multiple ear cushions. Your headset's performance is greatly dependent upon achieving a good fit on your ear. Therefore, we recommend trying all the supplied ear cushions with your headset.

The ear cushion is fitted onto the end of your headset's earpiece speaker like shown, and placed onto your ear when using your headset.

'OUR HEADSET

When fitting an oval-shaped ear cushion on your headset, be sure the cushion is oriented, as shown below (pointing towards the microphone).

WEARING THE HEADSET

To wear your headset, flex the earhook and loop it over your ear, as shown.

Be sure to position the ear cushion into your ear canal for optimal audio performance and comfort.

CHANGING FOR USE ON OTHER EAR

You can wear your H15 headset on your left or right ear. The headset comes ready for the right ear. To change the headset for the left ear:

- 1 Gently lift and pull the top of the earhook up and off speaker stem, as shown.

- 2 Flip the headset over.

- 3 Attach the earhook to the speaker stem, as shown.

QUICK BATTERY CHECK

When not in a call or connected, press and release both Volume buttons.

The indicator light displays charge status until you release the buttons. See below for details on indicator light and available talk time based on charge status.

| Headset Indicator | Available Talk Time |
|-------------------|----------------------|
| Red | Less than 1 hour |
| Yellow | 1 to 3 hours |
| Green | Greater than 3 hours |

USING YOUR DESKTOP CHARGER

While in the desktop charger, the headset remains on and still connected to the phone.

When there is an incoming call, simply take headset off the desktop charger to answer the call.

European Union Directives Conformance Statement

Hereby, Motorola declares that this product is in compliance with:

- The essential requirements and other relevant provisions of Directive 1999/5/EC.
- All other relevant EU Directives.

Product
Approval
Number

The above gives an example of a typical Product Approval Number.

You can view your product's Declaration of Conformity (DoC) to Directive 1999/5/EC (to R&TTE Directive) at www.motorola.com/rtte. To find your DoC, enter the product Approval Number from your product's label in the "Search" bar on the web site.

MAKING CALLS

| Function | Action |
|--|---|
| Make a voice dial call (Primary phone) | Tap the Call button and speak the name after the tone |
| Make a voice dial call (Secondary phone) | Tap the Call button and either Volume button and speak the name after the tone |
| End a call | Tap the Call button, and hear a high-to-low tone |
| Answer a call | Open the boom or tap the call button (if boom is ready open), hear a low-to-high tone |
| Reject a call | Press and hold either Volume button until you hear a tone |

Note: Some features are phone/network dependent.

MAKING CALLS *CONTINUED*

| Function | Action |
|---|---|
| Redial last call | Press and hold the Call button until you hear a tone |
| Answer a second incoming call | Press and hold the Call button (places first call on hold), and hear a tone |
| Reject second incoming call | Press and hold either Volume button until you hear a tone |
| Transfer a call from the headset to the phone | Press both Volume buttons and Call button, and hear a descending tone |
| Mute or unmute a call | Tap both Volume buttons until you hear a tone |

Note: Your H15 supports both Handsfree and Headset Profiles. Accessing call functions depends upon which profile your phone supports. See your phone's user's guide for more information.

AUDIO TONES

| Audio Tone | Headset Status |
|--|--|
| Ring tone | Incoming call |
| Short tone | Phone network not available |
| High to low tone | End call |
| One short tone when pressing Volume button during a call | Volume at minimum or maximum |
| Low tone (repeated every 15 seconds) | Mute reminder |
| Low to high tone | Connection confirmation/voice activation |
| No audio indications; deteriorating quality | Out of range |
| Two tones repeated every minute | Low battery |

INDICATOR LIGHT

With No Charger Plugged In

| Headset Indicator | Headset Status |
|---------------------------|----------------------------------|
| Off | Power off |
| Three blue flashes | Powering on/off |
| Steady blue | Pairing mode |
| Quick blue/purple flashes | Pairing successful |
| Quick blue flash | Incoming call on primary phone |
| Quick purple flash | Incoming call on secondary phone |
| Slow blue pulse | Connected (on a call) |
| Slow blue flash | Standby (not on a call) |

Note: After 20 minutes on a call or of inactivity, the light stops flashing to conserve power, but the headset remains on.

Note: To disable the indicator light, press and hold both Volume buttons while turning headset on.

INDICATOR LIGHT *CONTINUED*

With No Charger Plugged In

| Headset Indicator | Headset Status |
|-------------------|-------------------------------|
| Red flash | Idle (not connected to phone) |
| Slow purple pulse | Connected call muted |
| Quick red flash | Low battery |

Tip: Set your primary and secondary phones to different ring tones to know which phone is ringing when wearing the headset. See "Tips for using H15 with Two Phones" for more information.

INDICATOR LIGHT

With the Charger Plugged In To Travel Charger

| Headset Indicator | Headset Status |
|-------------------|------------------------------------|
| Red | Battery level less than 50% charge |
| Yellow | Battery level more than 50% charge |
| Green | Charging complete |

INDICATOR LIGHT

With Headset Plugged In to Desktop Charger

| Headset Indicator | Headset Status |
|--------------------|------------------------------------|
| Red | Battery level less than 50% charge |
| Yellow | Battery level more than 50% charge |
| Green | Charging complete |
| Quick blue flash | Incoming call on primary phone |
| Quick purple flash | Incoming call on secondary phone |
