  - Automatic speed negotiation and downshift
- **Software:**
  - Windows® 2000, Windows® XP device drivers

Package Contents

- 1 x Gigabit Ethernet Adapter
- 1 x User Manual
- 1x Driver CD

Driver Installation

1. After the hardware is installed, turn on your PC. Windows® will detect the ET1310 Gigabit Ethernet Card and find a "Ethernet Controller" device. When Windows® asks "What do you want the wizard to do?", click the "Cancel" to cancel the driver installation for this device. This driver will be installed from the included Driver CD.
2. Insert the Driver CD into the CD-ROM drive of your computer.
Browse to the ET1310 Driver Folder "\LAN\ET1310\Windows" on the Driver CD, then double-click the installation file "Setup.exe". Follow the on-screen instructions to finish the driver installation.
