

SMCWUSBS-N2

Draft 11n Wireless USB2.0 Adapter

OVERVIEW

The EZ Connect™ N Draft 11n Wireless USB2.0 Adapter (SMCWUSBS-N2) enables Wireless-N connectivity to your desktop or notebook computer and provides improved throughput and range than existing 802.11g technology. Upgrading to Wireless-N is an excellent solution for browsing the Internet and sharing files such as video, music and photos. The SMCWUSBS-N2 is Wi-Fi CERTIFIED™ for full compliance with the 802.11n draft v2.0 standard, as well as the popular Wireless-G (802.11g) and Wireless-B (802.11b) standards. This next generation standard utilizes advanced MIMO (Multiple-In, Multiple-Out) technology to deliver incredible speed and range. With security being a key consideration, the latest WPA and WPA2 wireless encryption standards are supported, which prevent unauthorized access to wireless networks and ensure data is secure. Wireless security can also be set up easily using Wi-Fi Protected Setup™ (WPS) that enables push button or PIN configuration. Finally the SMCWUSBS-N2 includes an easy installation wizard which guides you step-by-step through the install process. Once installed the WLAN utility allows you to scan for available wireless networks and manage multiple network profiles so connecting becomes instantaneous.

KEY FEATURES

New Wireless-N (802.11n draft v2.0) technology

Delivers improved speed and range than existing 802.11g technology while maintaining full backwards compatibility with older Wireless-G (802.11g) and Wireless-B (802.11b) standard products.

WPA/WPA2 Encryption

Prevents unauthorized access to your wireless network and insures your data is secure.

Wi-Fi Protected Set-up™ (WPS)

Makes wireless security setup easy with push button or PIN configuration.

Installation Wizard

Easy software installation with step-by-step guidance.
