

# iHiFi™

## iHiFi™ Product Line Specifications

***Zoom's iHiFi™ product line provides a Bluetooth® wireless link between your music player and your stereo, powered speakers or headphones.***

Use the iHiFi receiver and transmitter to relax with your iPod or MP3 player on a couch and play songs on your stereo, or dance, play, or work while your favorite tunes play on your sound system. Control the song selection, playlist and volume from your iPod or other audio device. No more shuffling through your CDs to find the song that's right for right now.

Use your iHiFi headsets to work out with high quality stereo headsets but without the annoyance and restriction of a cord. Or pump up the music while you walk down the street, without worries about missing a phone call. Your Bluetooth equipped phone rings through the iHiFi headset and the integrated noise cancelling microphone lets you make a hands free call.

Industry-standard Bluetooth digital wireless technology assures low battery consumption, excellent range, and high-fidelity sound. Much better than FM adapters, iHiFi can even penetrate walls, floors, and doors!

### Transmitters

#### Model 4355F

Works on any iPod with a dock connector, including iPod nano, 36G/46G, Video, photo/color. Fits as a natural extension.  
**Size:** 39.6 x 28.7 x 7.9 mm  
(1.56 x .113 x .31 inches)

#### Model 4353F

For any iPod or any other sound source with stereo headphone jack. Fits as natural extension.  
**Size:** 52 x 32 x 14 mm  
(2 x .125 x .55 inches)

#### Model 4354F

For iPod 3G and 4G, HP iPod, iPod photo/color, and U2 iPod. Fits as natural extension.  
**Size:** 61.5 x 18.5 x 9.77 mm  
(2.42 x .73 x .38 inches)

#### Model 4350F

For iPod mini. Fits as natural extension.  
**Size:** 51 x 19.3 x 9.77 mm  
(2 x .76 x .38 inches)

- Bluetooth v1.2 compliant Class 2 Transmitter supports A2DP profiles to assure great sound.
- Range is up to 21 meters (70 feet) when communicating with iHiFi receivers or headphones. Range may be reduced by obstructions or electrical interference.
- Models 4350, 4354 and 4355 draw power from the iPod's rechargeable battery. The Model 4353 has a rechargeable battery.
- LED indicator shows the status of the connection with the receiver.
- Compatible with Zoom iHiFi receivers and Bluetooth enabled headsets which support Bluetooth pairings of 1234 or 0000 and have support for the Bluetooth A2DP profile.
- Current consumption in typical operation: 28 mA (6.5 hours of operation with typical fully charged iPod battery)
- Certifications: FCC Part 15B and 15C, CE, RoHS
- Operating temperature range: 0 degrees to 40 degrees Centigrade, 32 degrees to 104 degrees Fahrenheit.
- Operating humidity range: 10% to 90% humidity
- Two year warranty

## Receiver

### Model 4360F

Size: 108 x 108 x 108.5 mm  
(4.25 x 4.25 x 4.27 inches)

- Bluetooth v1.2 compliant Class 1 Receiver
- LED Indication:
  - Red/Blue alternate flash: Pairing mode
  - Slow Blue flash: Connection established
- Compatible with Zoom iHiFi transmitters. Also compatible with Bluetooth adapters and MP3 players which support the A2DP Bluetooth profile and support for Bluetooth pairings of 1234 or 0000.
- Connects to audio amplifiers or powered speakers using RCA phono jacks or 3.5 mm (1/8 inch) stereo jack (both are included).
- Range: Up to 100 meters (330 feet) when connected to Bluetooth Class 1 devices, up to 21 meters (70 feet) when connected to Bluetooth Class 2 devices. The range can be reduced in the presence of interference, physical obstruction, or other conditions.
- Power Source: AC power cube (included)
- Certifications: FCC Part 15B and 15C, CE, RoHS
- Operating temperature range: 0 degrees to 40 degrees Centigrade, 32 degrees to 104 degrees Fahrenheit.
- Two year warranty

## Headphone

### Model 4380F

Size: Unfolded, 14.5 x 13.5 x 5 cm  
(5.7 x 5.3 x 2 inches)  
Folded, 9 x 8 x 7 cm  
(3.5 x 3.1 x 2.8 inches)

- Two wireless products in one:
  - Headset with pivoting boom microphone for mobile/cell phones
  - Stereo headphones for playback of high fidelity audio transmitted by Bluetooth from phones with MP3, iHiFi equipped iPods, computers and more
- Provides a phone ring through the music, so you never miss a call
- Bluetooth V1.2 compliant, Class 2 device
- Typical battery duration between charges is 14 hours with continuous music play, or 16 hours of phone talk time
- When used with the 4355F transmitter, music will automatically pause when a phone call is taken and resume when the phone call is ended.
- Bluetooth equipped phones ring over the music, so you never miss a call.
- Two LEDs show the status of connections to both a music player and a phone
- Includes rechargeable internal battery
- Certifications: FCC Part 15B and 15C, CE, RoHS
- Folds for easy storage in pocket
- Two year warranty

## Transmitter/Receiver Bundles

- Model 4370 includes a Model 4350 Transmitter and a Model 4360 Receiver.
- Model 4374 includes a Model 4354 Transmitter and a Model 4360 Receiver.
- Model 4373 includes a Model 4353 Transmitter and a Model 4360 Receiver.

## Transmitter/Headphone Bundles

- Model 4383F includes a Model 4380F Headphone and a Model 4353F Transmitter
- Model 4385F includes a Model 4380F Headphone and a Model 4355F Transmitter
- Model 4386F includes a Zoom Class 1 Bluetooth USB Adapter (Model 4310F) and a Model 4380F Headphone
